**Subject:** Airport MAster Plan comment

I very much want regular commercial service at McClellan-Palomar Airport. Regular commercial service is necessary to attract business, which bring jobs and improves the tax base. A local airport may also bring in more tourists from out of state who don't want to rent a car to drive from LAX.

The United flights from here to LAX were a great service for me. Without those flights, I need to drive to LAX or San Diego, adding to the snarled traffic on the freeway, and increasing pollution.

I hope the city will work with airlines to make Carlsbad an attractive city for them to service.
