Additional Activities

The PAAC meetings serve as a public forum for residents to express comment and ask questions about airport operations. Much of the public comment is regarding aircraft noise concerns. Public comment allows for the PAAC and Airport staff to inform residents about airport operations and explore the opportunities to address their concerns.

The PAAC also supports the Fly Friendly program in several ways. A significant component of that program is education. The PAAC has taken a role of educating residents in the local communities, as well as the pilot communities. The PAAC also works closely with airport users and pilot communities, including the Palomar Airport Association. PAAC members and Airport staff frequently attend the Palomar Airport Association meetings to provide airport updates and information regarding the Fly Friendly program.

Informative presentations were provided to committee members and residents at several of the PAAC meetings in 2019. In August, Mr. Otto provided an information presentation regarding the Voluntary Noise Abatement Procedures and runway 24 departures.

In July the PAAC also supported two new noise microphones that were installed at the Legoland Parking Structure and at the Vista Fire Station #5.

In November, Mr. Karpé provided a briefing on NextGen.

The Palomar Airport Advisory Committee is proud to have served the County Board of Supervisors and the residents of North County in 2019.
