

## **Palomar Airport Advisory Committee**

**June 21, 2018**

**Agenda Item #5**

### **Master Plan Draft Program EIR Status Update**

#### **Background**

As part of the ongoing Palomar Airport Master Plan process, County staff have reviewed public comments received regarding the Draft Program Environmental Impact Report (DPEIR) and have determined that some sections should be recirculated to give the public a further chance to review and comment on those sections. This presentation to the PAAC will be informational only and will be restricted to the recirculation of the DPEIR. For information on the Draft Master Plan Update and DPEIR itself, please go to the County's website at:
