

## JIM SWAIN

Mr. Swain has over 40 years of experience in both Military and Civilian Aviation. His career has been described as passionate, strategically focused, and professional by those who know him the best. He is currently President and CEO of Swain Aviation Consulting, a company that provides contract services on noise mitigation, airspace design and community outreach. His company has assisted the City of Oceanside Airport to provide airport information

services to the Oceanside community and implemented new methodologies to mitigate aviation noise and streamline air traffic flows for eight San Diego County Airports. Jim is also a Managing Partner of Premier Two 1 Four, LLC, a commercial real estate developer and owner/manager of class A executive office space located at the McClellan-Palomar Airport.

Jim's background includes experience as a Federal Aviation Administration (FAA) air traffic controller, staff officer, supervisor and executive facility manager at a variety of Southern California airport Control Towers and Radar Control Facilities. As a staff officer, he is recognized for his teamwork skills in the site selection and consolidation design of the 5 major Southern California Terminal Radar Control Facilities merging into the SOCAL TRACON Miramar location.

During the 1990s, Jim served as Acting Manager and Assistant Manager for periods of time at the Santa Barbara Air Traffic Facilities. He was selected as the FAA Western-Pacific Regional Administrator's Media Field Representative/Local Coordinator for Central California's Ventura and Santa Barbara Counties. From 1999 into the 2000s he held the position of FAA facility manager at Camarillo Airport and Gillespie Field.

As a result of his FAA career Jim has developed strong technical and airspace design skills as well as media and community outreach skills. As a negotiator, Jim is recognized for his ability to solve complex issues and exercise good professional judgement. He is a committed high performer and aviation expert. His mission is to work with community and aviation businesses to meet their needs. He is also devoted to helping the community and serves as the President of his community HOA board.
