

# SB 1383: Planning Checklist for Organic Waste

Planning Period: Jan 1, 2022—Dec 31, 2024

Article 11. Organic Waste Recycling Capacity Planning    Section 18992.3. Schedule For Reporting    Section 18992.1. Organic Waste Recycling Capacity Planning

Timeline	Tasks & Milestones	✓
Start in 2021 (through Jan 2022)	<b>Jurisdictions</b> to consult with haulers and owners of facilities, operations, and activities that recover organic waste to gather information on the existing organics recycling capacity available to their jurisdiction. This shall include LEA's and community composters. <i>Facilities must reply to request from jurisdictions within <b>60 days</b> of request</i>	
	<b>Jurisdictions</b> to estimate organic waste tons to be disposed in your jurisdiction (CalRecycle Tool).	
	<b>Jurisdictions</b> to identify the amount of existing, new, and expanded organic waste recycling infrastructure in tons, <b>verifiably available to that city</b> . <i>This shall include consultation with community composters, LEA's, haulers and owners of facilities, operations, and activities that recover organic waste.</i>	
	<b>Jurisdictions</b> to conduct community outreach regarding locations being considered for new or expanded facilities to seek feedback on benefits or impacts that may be associated with new or expanded facilities.	
	<b>Jurisdiction</b> to obtain verification of available capacity. This can be a contract, franchise, or other documentation of existing, new, or expanded capacity at a facility, activity, operation or property that recovers organic waste that will be available to the jurisdiction (County will request verification of this capacity).	
2/11/2022	<b>County</b> to send formal request to jurisdictions for organics facilities capacity available to their jurisdiction. <i>(Jurisdictions have <b>120 days</b> to respond to the County's request).</i>	
6/11/2022	<b>Jurisdictions</b> <u>deadline</u> to submit estimated organics disposal and available organics processing to County.	
6/11/2022 through 7/30/2022	<b>County</b> collects and aggregates disposal and capacity data received from jurisdictions. <b>County</b> reports surplus or lack in capacity by jurisdiction as supplied by jurisdiction. <i>If there is excess food donation capacity, this can be added to total organics capacity.</i>	
	If a county finds that new or expanded capacity is needed then on or before the <b>County</b> submits the report required, the County shall notify the jurisdiction or jurisdictions that they lack sufficient capacity.	
8/1/2022	<b>County</b> to submit report of surplus or lack of capacity to CalRecycle & reports jurisdictions that did not provide required capacity data.* <i>*the County is not required to include estimates for that jurisdiction in the report it submits pursuant to Section 18992.3.</i>	
11/29/2022	Implementation Schedule Due to CalRecycle, if lacking capacity. If the <b>County</b> reports that a jurisdiction is lacking capacity, <b>jurisdiction</b> must submit implementation schedule to CalRecycle (within 120 Days of County report submittal) demonstrating how it will ensure there is enough organics processing capacity (this will include time-lines and milestones for funding, identification of new facilities in the county).	

# Supplemental Information

Article 11. Organic Waste Recycling Capacity Planning    Section 18992.3. Schedule For Reporting    Section 18992.1. Organic Waste Recycling Capacity Planning

## Planning Description

For both capacity planning efforts, counties are responsible for:

- Collecting capacity planning information from each jurisdiction within the county
- Submitting the capacity planning report to CalRecycle
- Identifying any jurisdiction, including itself, that does not have enough verified existing, planned, or new capacity
- Informing jurisdictions that lack capacity about the timeline for submitting the implementation schedule to CalRecycle

Jurisdictions, including counties, are responsible for:

- Estimating organic waste disposal within the jurisdiction
- Identifying the amount of existing capacity, located both in the county and outside of the county, that is verifiably available
- Estimating the amount of new or expanded capacity that will be needed
- Consulting with various entities throughout the planning process
- Submitting an implementation schedule to CalRecycle when they lack capacity

Note: Jurisdictions exempt from organic waste collection requirements are not required to include capacity plans in the first reporting period (see Section 18992.3).

Future Capacity Planning Periods	County Report Date to CalRecycle
January 1, 2025 through Dec 31, 2034	August 1, 2024
January 1, 2030 through Dec 31, 2039	August 1, 2029
January 1, 2035 through Dec 31, 2035	August 1, 2034
<i>Due dates to County to be determined for future planning periods</i>
