

County of San Diego Authorized Hauler By Area Guide

County authorized recycling and waste companies provide curbside recycling, trash, and organics collection services throughout the unincorporated area. Below is an interactive list of these companies.

To use this resource, first find your community to evaluate the available options and either click on the link, or scroll to the page listed. If service is provided in your community, on each row you will see the service(s) offered based on container size (carts, dumpsters, and boxes/roll-off bins, *see images below as examples*) and material(s) collected (identified with a **T** for Trash, **R** for Recycling, and/or **O** for Organics).

*Note: The zip codes provided are included to aid your search, however, they are not exhaustive. If a company provides service to any community within a zip code, they are listed as providing service, however they may not provide service to all communities within that zip code. Please contact the company to confirm and inquire about service options.
