

APOT Collaborative

Christopher Scott MD

What it is

- ◊ Representative
- ◊ Solution oriented
- ◊ Collaborative

What it isn't

- ◊ Policy/protocol making body
- ◊ Government entity

What have we accomplished

- ◆ Position paper #1 – Data Records Management- Emphasizes the need to address data integration issues to improve ambulance offload times (APOT). It recommends prioritizing the merger of CAD ePCR data with the LEMSIS by 4/30/2025.
- ◆ Position paper #2 – Effectively Defining at Destination Timestamp – Outlines possible ways to effectively and accurately record the at destination (hospital) timestamp. Provides suggestions for future development to continue to improve. Attempts to recommend best practices.

The Future...
