1/30/2026	Christian Sloane	subpoint B is awkwardly worded. It says "...for at least 100 days and any other applicable timeframe established...". I would suggest something along the lines of simply "...a minimum of 100 days, and longer if stipulated by..." subpoint C- what does this mean? "maintained in a manner that supports"? Entire policy seems very vague and is written as if trying to get a policy out with no clearly stated goal.
