4. New Business	Guest Presentation: Saad Asad Housing Affordability for Aging Populations– 58% of renter households are spending over 30% of income on housing = “cost burdened” 30% of renter households are spending over 50% of income on housing = “severely cost burdened” Deficit of 132,000 affordable and available homes throughout San Diego County. This is driven by rising housing costs Average SSI benefit is \$1700/month, Avg cost of 1 bedroom apt is \$2400 Senior population is continuing to rise Challenges to more senior housing: -limited land availability causes an increase in price along with rising construction and interest costs. -limited government funding for housing (temporary & permanent) -zoning restrictions -NIMBY efforts limit building for shelters and assisted living facilities -public transportation is often not available in more affordable parts of county SOLUTIONS -reducing the cost of housing - seniors less likely to need parking options -more options for seniors - smaller units including ADUs, multigenerational homes		

	<p>-tenant protections - slower rent increases, relocation assistance for seniors moving to more affordable housing, protections for seniors</p> <p>-short-term rental assistance for home modifications or health emergencies</p> <p>COUNTY ROLE</p> <p>-county provides housing subsidies, converts commercial units to residential, can reform zoning restrictions to increase density</p> <p>-California rent control only affects buildings older than 10 years, excluding affordable housing</p> <p>Group Discussion:</p> <p>300,000 hours requested were left unfulfilled by IHSS providers last year</p> <p>Many of the needed hours are for residents in North County, many IHSS providers live in South Bay</p> <p>Only 30-40% of IHSS providers are interested in caring for non-family members</p> <p>Is building ADUs in North County a potential solution?</p>
5. Actions Steps	1. Continue integrating and report backs.
