4. Subcommittee Goal Discussion	a. Shirley King reported that she contacted Jana Jordan to ask about any known public policy reports with current data about housing instability in San Diego County. Jana did not know of any reports, and she requested the policy briefs that Shirley had cited in her draft position paper. Paul Ling asked if Shirley is ready to submit the draft position paper for a review by Advisory Council Chair, John Osborne. She agreed to send it to John for his comments and to copy Paul. b. Paul Ling suggested a discussion of the resources that are available for the 'forgotten middle' senior population when at the point of needing in-home services. Paul contacted 2-1-1 to ask about in-home care resources for a limited income senior couple. He was given the names of the two for-profit companies. He called these companies and learned the high costs involved. Molly clarified that it is very difficult to employ in-home workers these days and that accounts for the higher hourly wage. Paul will research public non-profit agencies such as Elder Help for the costs of their care coordination. Faye will contact Jewish Family Services to ask about their case management services for seniors. c. Molly Nocon proposed an agenda item for the next meeting: the recent additional rate tiers and the implications for the supportive congregate housing for adults with disabilities.
