Additional Internet & Technology Access Resources

Mobile Service Providers – Many mobile providers are offering assistance during COVID-19. Reach out to your mobile provider to inquire about assistance programs and services.

Internet for All Now – The California Emerging Technology Fund can provide assistance determining if your household qualifies for an affordable home internet offer; call toll-free 1-844-841-INFO (4636), or visit http://www.internetforallnow.org/get_affordable_internet_today.

Everyone On – To see low cost internet offers for which you may qualify based on zip code and household circumstances call 1-855-EVERY1ON (3879166), text CONNECT to 30364, or visit <https://www.everyoneon.org>.

Human-I-T – A non-profit organization available to help those who are not connected to or unable to afford internet services. Fill out an internet request form at <https://www.human-i-t.org/request-internet> or text 1-562-372-6925 for assistance accessing internet services. Assistance is also available to help with affordable device access.

Computers 2 Kids – C2K is a program that donates computers to families in need at a reduced cost. Each computer received includes one free year of technical support and is loaded with Microsoft Windows and Office Suite software. Apply online at <https://www.c2sdk.org/>; only one application permitted per household. Call 1-858-200-9788 with questions.

**Note: Many internet service providers are offering assistance during COVID-19; this is not meant to serve as an exhaustive list of services.*
