RECEIVE AN UPDATE ON ADVANCING THE BEHAVIORAL HEALTH CONTINUUM OF CARE, AUTHORIZE CONSTRUCTION CONTRACT FOR THE EAST REGION CRISIS STABILIZATION UNIT, AND RECEIVE THE OPTIMAL CARE PATHWAYS MODEL (DISTRICTS: ALL)

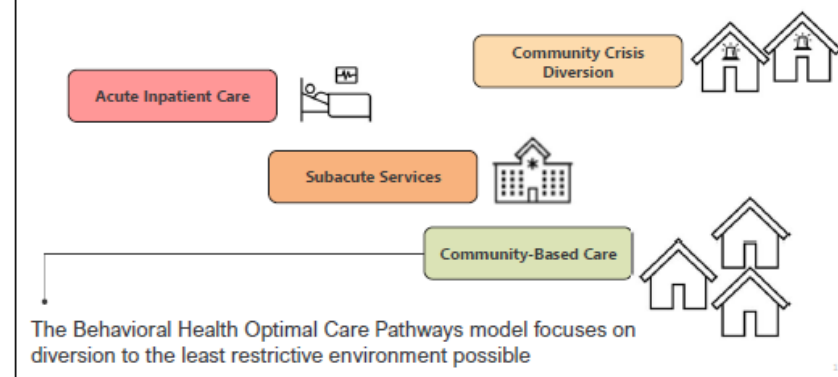

OVERVIEW

Under the leadership of the San Diego County Board of Supervisors (Board), behavioral health care in San Diego County is in the midst of a profound transformation. The County of San Diego (County) is taking action and making strategic investments to move the local behavioral health care delivery system from a model of care driven by crises to one centered on continuous, coordinated care and prevention. These efforts, broadly referred to as the Behavioral Health Continuum of Care (Continuum of Care), are guided by data, focused on equity, and designed to engender collaborative work across silos, within and outside of government.

SUBJECT

ESTABLISH THE BEHAVIORAL HEALTH IMPACT FUND 2.0 (DISTRICTS: ALL)

OVERVIEW

Behavioral health covers a broad spectrum of mental health and addiction services. In recent years, behavioral health has come into full focus by the San Diego County Board of Supervisors (Board) as the issues surrounding addiction and mental health continue to significantly impact our community. In response to this, the Board has taken measures to address those challenges.

In 2019, I brought forward a board letter to create the Behavioral Health Impact Fund in partnership with the City of San Diego, which was seeded with \$25 million in funding to spend on impactful programs. This fund has successfully supported innovative behavioral health services and has created traditional housing units, crisis treatment vans, and technology for mental health and addiction services. Now that these funds are almost completely expended, I am proposing to close out the existing fund and establish a new fund wholly controlled by the County, the Behavioral Health Impact Fund 2.0 (BHIF 2.0), which would feature lightly modified criteria that can ensure funds are quickly deployed for priority projects along the behavioral health continuum.

RECOMMENDATION(S)

CHAIR NATHAN FLETCHER

1. Pursuant to Government Code section 26227, find that the proposed Behavioral Health Impact Fund 2.0 is necessary to meet the social needs of the County's population.
2. Establish the Behavioral Health Impact Fund 2.0 grant program.
3. Direct the Chief Administrative Officer to return to the Board within 120 days with proposed evaluation and selection criteria for the Behavioral Health Impact Fund 2.0.
4. Authorize the Director, Department of Purchasing and Contracting, subject to availability of funding, to issue request(s) for proposals for continuum of care services, which includes behavioral health workforce programs, services, and/or infrastructure projects, to award agreements to successful proposers on an ongoing basis, and to amend the grant agreements as necessary.
5. Direct the Chief Administrative Officer, or designee, to administer the Behavioral Health Impact Fund 2.0, including the evaluation of proposals and the administration of the resulting agreements.
6. Direct the Chief Administrative Officer to submit a written report to the Board of Supervisors every 120 days on the status of awards, including the total number of awards granted, types of projects awarded, a description of recently awarded projects, and amount of funds remaining.

SUBJECT

ADDRESSING THE BEHAVIORAL HEALTH WORKER SHORTAGE IN SAN DIEGO COUNTY (DISTRICTS: ALL)

OVERVIEW

The County of San Diego (County) is facing a significant behavioral health worker shortage. Today, we lack 8,100 behavioral health workers to meet the current demand. By 2027, it is estimated we will need a total of 18,500 behavioral health workers. This forecast takes into consideration current workforce recruitment and retention projections and anticipated growth in demand. Our behavioral health workers serve some of our most vulnerable populations along the behavioral health continuum of care and range from peer support specialists to psychiatrists.

A recent report conducted by the San Diego Workforce Partnership, "Addressing San Diego's Behavioral Health Worker Shortage" (Attachment A), commissioned by Chair Nathan Fletcher, discovered that San Diego regional behavioral health workers are paid less than their counterparts in most California counties, and are leaving the San Diego workforce. Although many behavioral health workers report they love their profession, many elements such as low compensation, burdensome documentation, inaccessible educational opportunities, and stress on the job are pushing workers out of the region and profession.

HOW MANY MORE BEHAVIORAL HEALTH PROFESSIONALS DOES SAN DIEGO NEED?

18,500 more workers needed by 2027

**ENHANCING FENTANYL EDUCATION AND STRENGTHENING HARM
REDUCTION EFFORTS FOR YOUNG PEOPLE (DISTRICTS: ALL)**

OVERVIEW

On June 28, 2022, the Board of Supervisors unanimously directed the Chief Administrative Officer to work with the Health and Human Services Agency (HHS) Director to develop recommendations and implementation plan to declare illicit fentanyl as a Public Health Crisis. It is important that the Board of Supervisors continue to support efforts to educate and increase awareness against the devastating and harmful impacts of illicit fentanyl especially among young people.

AUTHORIZE APPROPRIATIONS FOR THE TRI-CITY PSYCHIATRIC HEALTH AND THE EAST REGION COMMUNITY-BASED CARE FACILITIES; ACCEPT GRANT FUNDING FOR THE EDMOOR ACUTE INPATIENT UNIT; SHIFT FUTURE SERVICES AT THE SAN DIEGO COUNTY PSYCHIATRIC HOSPITAL FACILITY AND THE VACANT COUNTY-OWNED PROPERTY AT 4307 THIRD AVENUE; AND ISSUE COMPETITIVE SOLICITATIONS FOR PROFESSIONAL SERVICES, PRECONSTRUCTION SERVICES, AND THE DEVELOPMENT OF THE CENTRAL REGION AND EAST REGION COMMUNITY-BASED CARE FACILITIES (DISTRICTS: ALL) (4 VOTES)

OVERVIEW

Under the leadership of the San Diego County Board of Supervisors (Board), behavioral health care in San Diego County is in the midst of a profound transformation. The County of San Diego (County) is taking action and making strategic investments to move the local behavioral health care delivery system from a model of care driven by crises to one centered on continuous, coordinated care and prevention. These efforts, broadly referred to as the Behavioral Health Continuum of Care (Continuum of Care), are guided by data, focused on equity, and designed to engender collaborative work within and outside of government.

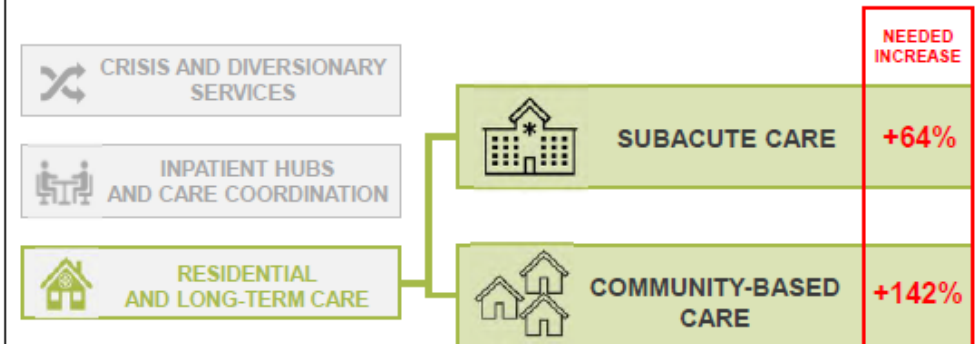

BOS Presentation included
in the meeting packet

RECOMMENDATIONS

- Find the proposed actions exempt from the California Environmental Quality Act.
- Establish the following appropriations:
 - Up to \$7 million for Tri-City Healthcare District Psychiatric Health Facility.
 - \$5 million for the planning and design related to facility improvements for the San Diego County Psychiatric Hospital.
 - \$1 million for the planning and facility programming of the East Region Community-Based Care Facility.
- Authorize the acceptance of the \$4.4 million Behavioral Health Continuum Infrastructure Grant funding for the construction of the new Acute Psychiatric Unit on the Edgemoor campus.
- Authorize the shift of future services at the San Diego County Psychiatric Hospital and Third Avenue.
- Authorize competitive solicitations for architectural and engineering services, professional services, preconstruction services, and the development of the Central Region and East Region Community-Based Care Facilities.

**A COMPREHENSIVE APPROACH TO THE OPIOID CRISIS AND ADOPTION OF
THE SAN DIEGO COUNTY OPIOID SETTLEMENT FRAMEWORK (DISTRICTS:
ALL)**

COSD CLERK OF THE BOARD
2022 OCT 21 AM 9:57

OVERVIEW

The nation is in the grip of an opioid crisis. Drug overdose deaths have increased year-over-year, with 71 percent of drug overdose deaths caused by opioids. In 2021, more than 900 San Diegans died from opioid-related accidental overdoses, a 54 percent increase from the previous year. These deaths are a result of both legally prescribed opioids and illicit opioids including heroin and fentanyl. The County of San Diego (County) has a responsibility to respond to the opioid crisis and take all reasonable steps possible to stem the loss of life and heal those who have developed a related substance use disorder.

Attachment A: Opioid Settlement Framework

This document outlines the County of San Diego's framework for the utilization of opioid remediation funds from anticipated opioid settlement awards.

Phase I programs will be implemented immediately once opioid settlement funds are awarded to the County and available for allocation and will be prioritized for ongoing funding where appropriate. Existing programs will be augmented using the opioid settlement funds.

Phase II programs will be implemented once funds and infrastructure are available and will receive ongoing funding where appropriate.

RECEIVE AND APPROVE THE MENTAL HEALTH SERVICES ACT FISCAL YEAR 2022-23 ANNUAL UPDATE (DISTRICTS: ALL)

OVERVIEW

The Mental Health Services Act (MHSA) provides funding to counties to address a broad continuum of mental health service needs, including prevention, early intervention, and system development; and to address the necessary infrastructure, technology, and training to effectively support the public mental health system. MHSA programs provide services for children, youth, and families; transition age youth; adults; and older adults, with an emphasis on individuals who are unserved or underserved. MHSA is comprised of five components:

- Community Services and Supports,
- Prevention and Early Intervention,
- Innovation,
- Workforce Education and Training, and
- Capital Facilities and Technological Needs.

RECEIVE UPDATE ON THE SAN PASQUAL ACADEMY TRANSITION, AUTHORIZE COMPETITIVE SOLICITATIONS, AND AUTHORIZE APPLICATION FOR FUTURE FUNDING (DISTRICTS: ALL)

OVERVIEW

San Pasqual Academy (the Academy) opened in 2001 and is a first-in-the-nation residential education campus designed to meet the unique needs of adolescent youth in the foster care system and to prepare them for self-sufficiency upon exiting care. Over the last six years, federal and State legislation have significantly shifted the statutory requirements for keeping children safely with families. This has resulted in sweeping legislative changes that identify home-based settings with resource families as the best placement option for youth and has reduced the reliance on and use of congregate care.

BOS Presentation included
in the meeting packet

SUPPORTING PROCUREMENTS

Behavioral Health Services

Secured a contract to support specialty mental health needs of youth residing in the Resource Family Homes on campus

Initiated a procurement to support the mental health well-being of youth in the Group Home

EXCITING UPDATES

Board Approves Continuum of Care Update and the Optimal Care Pathways (OCP) Model

The County has been working on building a better behavioral health system with the vision of shifting a system driven by crises to one driven by chronic or continuous care and prevention to better provide whole person supports to the community. This transformation is referred to as the Behavioral Health Continuum of Care. To advance this vision, Behavioral Health Services (BHS) is using data to identify the barriers in care and making key strategic investments to fill those gaps.

BEHAVIORAL HEALTH SERVICES (BHS) DIRECTOR'S REPORT – NOVEMBER 2022

BHS COMMUNITY ENGAGEMENT UPDATE

As the COVID-19 pandemic continues, organizations across the globe and across various industries have and continue to evaluate and redefine how they operate. At the County of San Diego (County), a key shift that has occurred is the re-envisioning of the County's General Management system (GMS). The GMS is a comprehensive operational guide that applies management principles to County operations to ensure the best service provision to people in the region. In the last several months, the County has reimagined its operational approach to planning and decision making by integrating the GMS with the updated [Strategic Plan](#) adopted by the San Diego County Board of Supervisors (Board) earlier this year. This takes the GMS in a direction that is reflective of today's communities while preserving the core management principles of strategic planning, operational accountability, enterprise-wide collaboration, and employee connection.

BHS SPECIAL EVENTS AND ANNOUNCEMENTS

Screening to Care Initiative Request For Proposal (RFP) 11615

This program was created to address mental health treatment needs of middle school students regardless of insurance status. Proposals are due November 18, 2022. The full RFP packet can be accessed on BuyNet at <https://buynet.sdcounty.ca.gov/>

Save the Date: December 7, 2022, Live Well San Diego Advance Conference & School Summit

The 7th Annual Live Well Advance Conference and School Summit will be held in-person on Wednesday, December 7, 2022, at the San Diego Convention Center. This year's theme is Building an Equitable Future. The Conference brings thousands of partners and stakeholders together to network, learn about new tools and best practices, and participate in breakout sessions. Leaders from every sector come together to participate in efforts to advance the shared vision of a healthy, safe, and thriving San Diego Region. Registration to attend the event will be opening soon.

Tri-City Psychiatric Health Facility (PHF) Groundbreaking

On Monday, October 17th the County and Tri-City Healthcare celebrated the groundbreaking of the new Tri-City PHF in Oceanside. Located at the western edge of the Tri-City Medical Center campus, the new 13,560 square foot, 16-bed facility will provide psychiatric inpatient care to address the region's need for behavioral health services. The County of San Diego and Tri-City Medical Center partnered to plan, design, and build the new facility, which will complement other available services in the region, including the County's Mobile Crisis Response Teams (MCRT) and the two Crisis Stabilization Units (CSU's) in Vista and Oceanside. The County will fund the initial development and construction of the \$27.6 million facility, and Tri-City will repay half of the construction costs through a devotion of land for the project and services within the new facility. Once operational, services will be jointly funded by the County and Tri-City. Construction of the project is set to begin in November and is slated for completion in February 2024.

Student Behavioral Health Incentive Program

Back to [Medi-Cal Managed Care](#)

The consequences of not addressing child and adolescent mental health conditions often extend to adulthood. According to the World Health Organization (WHO), half of all mental health conditions start by 14 years of age but most cases are undetected or untreated. Child and adolescent mental health hospitalizations and suicide rates have increased over the last decade, many say we are reaching a youth mental health crisis in the U.S. Additionally, COVID-19, stay-at-home orders, and school closures have impacted children and adolescents in an unprecedented manner, causing additional stress and anxiety. It is imperative to enhance access to behavioral services and address the mental well-being of children and adolescents.

Schools are a critical point of access for preventive and early-intervention behavioral health services, as children are in school for many hours a day, for approximately half the days of the year. Early identification and treatment through school-affiliated behavioral health services can reduce emergency room visits, crisis situations, inpatient stays, and placement in high-cost special education settings and/or out of home placement. Furthermore, African American, Native American, and Pacific Islander students¹ are more likely to be chronically absent, suspended, or expelled. LGBTQ students are two times more likely to report depression and three times more likely to report suicidal ideation than non-LGBTQ peers. Development of a cross-system partnership focused on increasing access to behavioral health services in school and school-affiliated settings is critical for improving these outcomes. Schools often lack on-campus behavioral health resources and find it challenging to recognize and respond appropriately to children's mental health needs, particularly in the absence of school mental health professionals).

In an effort to provide additional avenues to address behavioral health in schools, [Assembly Bill 133: Section 5961.3](#) outlines the Student Behavioral Health Incentive Program (SBHIP) and the program documentation will be posted here.

Stakeholders may obtain the program templates and forms by submitting a request to the SBHIP inbox (SBHIP@guidhouse.com).

DISCUSSION QUESTIONS:

- What would you like to see come out of SBHIP?
- What do you want the Medi-Cal Managed Care Plans (MCPs) to know?
- Where do you see the biggest gaps/barriers between schools, the county, and health plans in serving kids?
- What ideas or best practices can be shared?
- What services are needed for younger students (TK-8 Grade)?

CYF COUNCIL MEETING POLL QUESTION (FINAL)

On a scale of 1-5 (1 the lowest and 5 the highest), how would you rate the relevance and your interest with today's Council meeting? (Single Choice)
