SUSTAINABLE PLANNING FOR THE FUTURE LONG-TERM, STATE AND FEDERALLY FUNDED MIGRANT TRANSFER SITE AND RESPITE SHELTERS FOR THE SAN DIEGO REGION TO ADDRESS STREET RELEASES (DISTRICTS: ALL)

OVERVIEW

San Diego County has continuously welcomed asylum-seeking migrants and refugees fleeing persecution in their home countries. Over the past seven years, the U.S.–Mexico border has seen an increase in asylum seeking migrants from humanitarian crises around the globe. Federal law allows people from other countries to seek asylum in the United States if they fear persecution at

Recommends a two-part strategy to address the migrant humanitarian crisis:

- 1) Continue operations within an already established transfer site
- 2) Advocate for State/Fed funding towards a permanent solution to include a transit site for street releases

BHS Workforce Education and Training Updates

Behavioral Health Workforce Shortage Report

On October 11, 2022, the Board of Supervisors (Board) received the report titled "*Addressing San Diego's Behavioral Health Workforce Shortage*" and directed the County Chief Administrative Officer (CAO) to support legislation that would address behavioral health worker recruitment; training and retention; improve behavioral health workforce licensing and credentialing; supervision and training; higher education; and parity. Additionally, the CAO was directed to report back to the Board regularly on strategies and efforts made to address recruitment and retention. The report outlined five recommendations to address San Diego's workforce shortage: 1) Invest in competitive compensation; 2) Pursue administrative relief; 3) Build regional workforce training fund; 4) Establish regional training centers of excellence; and 5) Continue listening to workers. The following are updates on BHS' progress on addressing these recommendations.

Conrad Prebys Clinical Supervision Program

INFORMATION

The **San Diego State University School of Social Work** is pleased to have the opportunity to provide supervision to registered Associate Clinical Social Workers (ASWs) in San Diego County working towards licensure with **free supervision** from a Licensed Clinical Social Worker (LCSW). This effort aims to promote capacity building in organizations that have difficulty providing sufficient onsite clinical supervision to their ASW's, and promote employee retention during the licensure process and beyond. It is our hope that recipients of this support go on to obtain licensure and provide supervision for their respective organizations.

Associate Clinical Social workers may benefit from this opportunity if:

- Their employer does not currently have the capacity to provide clinical supervision onsite.
- Their employer does not currently have enough LCSWs onsite to support the BBS required 1700 hours supervised under a LCSW.

Priority consideration will be given to:

- Individuals with an interest in working in youth behavioral health.
- Individuals with language and cultural competencies that can address behavioral health needs in underserved communities in the greater San Diego County region.

Due to state regulations, we are not able to provide supervision to those working in private practice or professional corporation settings.

Associates can request supervision at: <https://forms.gle/kiEvW96tLJCVCbME9>
