IV. Mental Health Services Act (MHSA) Update (Dr. Danyte Mockus-Valenzuela)	BHS May is Mental Health Month page: https://www.sandiegocounty.gov/content/sdc/hhsa/programs/bhs/mimhm_resources.html More information and a list of upcoming local events is available at the May Is Mental Health Month calendar: https://www.sandiegocounty.gov/content/dam/sdc/hhsa/programs/bhs/pce/calendar.pdf To submit planned activities in celebration of May Is Mental Health Month, please send event information to Nancy Page at: nancy.page@sdcounty.ca.gov.
 Hot Topic: Coffee with BHS Director (Minola Clark Manson) Dr. Luke Bergmann's vision for serving children, youth, and families Question 1 - What is your vision and plan for CYF SOC to take action to end disparities and racism? Question 2 - Sometimes there is a delay in knowing the true impact of trauma on someone, especially a young child, since symptoms often present themselves months after the traumatic event and after a sense of safety has been established for that child. Knowing this, we anticipate seeing an even greater need for mental health services for young children and their caregivers as school returns to in-person in the fall. What steps and behavioral health resources will be put in place for the most vulnerable in our community, so the impact is not life long? Question 3 - How do you envision the CYF system working towards a population health orientation? Open Discussion. 	 Dr. Luke Bergmann, BHS Director, discussed the new Population Health Officer and BHS epidemiologist positions, the Community Experience Project, Behavioral Health Equity Index and community based participatory research. He highlighted the American Rescue Plan Act of 2021 (ARPA) and the opportunities it will present for children, youth and families including upcoming work in the school sphere. The upcoming County budget and support for BHS by the Board of Supervisors was discussed. For additional details, see the Highlights from Coffee with the BHS Director, Dr. Luke Bergmann on page 6 of this document.

CHILDREN, YOUTH AND FAMILIES (CYF) BEHAVIORAL HEALTH SYSTEM OF CARE COUNCIL

MEETING AGENDA-Hot Topic Summary May 10, 2021 – 9:00-10:30 A.M.

Highlights from Coffee with the BHS Director, Dr. Luke Bergmann

- Question 1 What is your vision and plan for CYF System of Care to take action to end disparities and racism?
 - Established <u>Population Health Officer</u> position held by Dr. Nicole Esposito.
 - A team of <u>BHS epidemiologists</u> is developing mechanisms to obtain data outside of BHS to better understand community needs. This effort includes leveraging established relationships inclusive of the University of California, San Diego UCSD Health Services Research Center (HSRC) and Rady Children's Hospital Children and Adolescent Services Research Center (CASRC) and focusing on the development of a <u>Community Experience Project</u> to help create the Behavioral Health Equity Index
 - Support Community Based Participatory Research.
 - Important to invest in well diverse workforce that knows how to use cultural identity as a tool.
- Question 2 Sometimes there is a delay in knowing the true impact of trauma on someone, especially a young child, since symptoms often present themselves months after the traumatic event and after a sense of safety has been established for that child. Knowing this, we anticipate seeing an even greater need for mental health services for young children and their caregivers as school returns to in-person in the fall. What steps and behavioral health resources will be put in place for the most vulnerable in our community, so the impact is not life long?
 - There are a lot of resources in place like the American Rescue Plan Act of 2021 (ARPA), which are one-time investment opportunities. This is a great resource but need to be aware of its limitations. At this point, the County is still exploring how these monies may be spent.
 - The Fiscal Year 2021-22 proposed budget prioritizes support for behavioral health, dedicating almost \$813 million overall, including increases to redesign and enhance programs and services, including the enhancement of crisis stabilization services, and helping ensure behavioral health clients are placed at the correct level of care with intent to reduce emergency room use. The budget also provides support for youth involved in the justice system.
 - Preliminary planning is being conducted to support students in partnerships with schools.

Question 3 - How do you envision the CYF system working towards a population health orientation?

■ Board of Supervisors are very supportive of BHS through strategic investments focused on changing services modality from crisis driven to one centered on continuous coordinated care and prevention. This is naturally inclusive of the 0 – 5 population. These efforts will be guided by data; focused on equity and designed to advance collaboration.

Summary of additional input/next steps:

- ✓ One of the Cultural Competence Resource Team (CCRT) contributions has been the review of the Disparities Report.
- ✓ The County Department of Purchasing and Contracting has developed multiple mechanisms to support entities that need help to provide and support services.
- ✓ County efforts are not expecting to end racism, but very visible changes can be made.
- ✓ More community input can be provided through more focus groups that acknowledge the diversity of the community, including focus groups with youth participation.
- ✓ The June 14, 2021 CYF Council meeting will focus on providing input/recommendations for CYF services using ARPA funds.
