CYF Memo: # 02 - 17/18

To: CYF Full Service Partnership (FSP) Contractors

From: Yael Koenig, CYF Deputy Director

Re: **DCR Rewrite to BHIS**

The State is updating the Data Collection and Reporting (DCR) system to utilize a new data platform known as the Behavioral Health Information Systems (BHIS). The migration to BHIS is referred to as "DCR Rewrite" and is occurring in October 2017. In order to access the DCR through BHIS, the County will re-enroll all CYF users of the DCR system and therefore no action is needed on the contractor level for re-enrollment. The following is important information for contractors:

1. CYF is utilizing the current DCR Roster to make the updates, therefore please inform Sergio Garcia (Sergio.Garcia@sdcounty.ca.gov) of any users that are not currently listed on the roster and need access to the system (name and email will allow BHS to register the individual). Current Roster attached.
2. The DCR system is not available to users while the system is being migrated to the new platform and all users have been re-enrolled and activated.
3. County BHS will inform all CYF FSP contractors as soon as the State reactivates the DCR for data entry. In the interim, contractors shall continue to collect all necessary data points (PAS, KET, 3Ms) and enter them promptly upon reactivation of the DCR system.

If you experience any issues or problems regarding this migration, please contact Sergio Garcia at 619-584-5083 or via email (Sergio.Garcia@sdcounty.ca.gov).

Attachment: CYF FSP Users Roster
