### BEHAVIORAL HEALTH SERVICES (BHS) DIRECTOR'S REPORT - May 2025

#### REMARKS FROM BHS ACTING DIRECTOR

I am honored to serve in the role as the Acting Director of Behavioral Health Services for San Diego County. This job is big, and the system is complex. However, I am confident in the ability of the BHS team to press forward and advance efforts that support people across our continuum in accessing the care that they need, when they need it. We have an incredibly talented team of County staff and contracted providers who work hard each day to care and support people with behavioral health needs.

I would also like to acknowledge the amazing vision and leadership put forth and operationalized by my predecessor, Dr. Luke Bergmann, over the past six years. Dr. Bergmann has been an incredible mentor, friend, and boss to me personally as well as a staunch advocate for innovation and improved access to care for people with substance use and mental health conditions.

As we move through this period of transition, BHS will remain committed to advancing important work already underway, as well as new initiatives on the horizon. The following briefly highlight key priority areas:

- 1. Maintain continuity of behavioral health care across our system
- 2. Continue efforts to recruit and retain an expert behavioral health workforce
- 3. Continue implementation of Board priorities, new initiatives, and new mandates, including and not limited to:
  - a. Optimal Care Pathways (OCP) models (Mental Health, Substance Use, Children/Youth/Families/Transition Age Youth)
  - b. Network/service enhancements
  - c. Optimization organizational structure and operations as a Health Plan

- d. Optimization of revenue
- e. Enhanced community engagement and empowerment
- f. Implementation of BH-CONNECT, BHSA, payment reform, and other major policy shifts
- g. Continued implementation of the outpatient EHR and other critical systems
- h. Others
- 4. Accelerate culture change within the organization
  - a. Embrace innovation
  - b. Encourage direct, open, and transparent communication
  - c. Foster an environment of learning and growth of expertise
  - d. Expect organizational flexibility and the ability to evolve and embrace change
  - e. Cultivate strong relationships
  - f. Strive to be a nationally recognized organization within community behavioral health

I am excited to work with BHAB to support these efforts and to further build trust and rapport with the diverse communities that we serve. I appreciate the dedication and time each of you invests in continually improving our local behavioral health continuum of care and I look forward to the work we will accomplish together.
