

# Tijuana River Valley Sewage Emergency: Assessment of Chemical Exposure (ACE) Results

County of San Diego HHSA  
[SANDIEGOCOUNTY.GOV/HHSA](https://sandiegocounty.gov/hhsa)

# ACE Goals and Objectives

---

- **Goal:** Assess individual-level impacts through an *on-line survey* related to sewage exposure from the Tijuana River Valley
- **Objectives:**
  - Understand concerns of air and water exposure from contamination
  - Explore concerns about residential, occupational, recreational and other environmental exposures and health effects
  - Obtain parents' responses on behalf of children under age 18

# Summary of 2,099 participants

**18 years or  
older**

**Female\***

**High School  
or less**

**Have health  
insurance**

\*13 women reported being pregnant: 2 in their first trimester, 6 in the second and 5 in the third.

# Race and Ethnicity

**172** Spanish  
surveys  
taken

\*Non-Hispanic; \*\*Includes non-Hispanic Native Hawaiian or Pacific Islander, American Indian or Alaska Native, and Middle Eastern or North African

**65%**  
**feel like their**  
**mental**  
**health symptoms**  
**are related to the**  
**Sewage Crisis**

**(n=1200/1850)**

Overall, **28% of participants\*** scored 3 or more on Generalized Anxiety Disorder 2-item (GAD-2) screen indicating possible clinical **anxiety** in the last 2 weeks

Participants reporting severe sewage smell tended to score **higher** on the GAD-2

**35%** participants who reported **severe sewage smell**, reported **anxiety** symptoms

Overall, **21% of participants\*** scored 3 or more on Patient Health Questionnaire-2 (PHQ-2) screen indicating likely major **depression** in the last 2 weeks

Participants reporting severe sewage smell tended to score **higher** on the PHQ-2

## BHS Action

---

- BHS Team has been actively communicating information to provider network
- Emphasis on ensuring awareness by programs serving individuals in the south region

BHS Providers have reported sharing the PowerPoint with their staff

Some programs report clients presenting with anxiety surrounding long-term and short-term health impacts

Clinicians offer support and build skills in managing reported feelings of hopelessness

Caregivers share asthma flare-ups for kids resulting in missing school and therapy appointments

## Closing

---

- **Focus on the Root Cause while supporting the Health of the Community**
  - Significant funding has been acquired to fix sewage infrastructure
  - On May 20, 2025, USIBWC and EPA announced the acceleration of the expansion of the South Bay International Wastewater Treatment Plant from 25 to 35 million gallons per day.
    - Originally planned to take 2 years, the upgrade will be completed in 100 days (August 28, 2025)
