WHAT IS THE DATA NOTEBOOK?

LIVE WELL
SAN DIEGO

- California Mental Health Planning Council
 - A majority Consumer & Family member advisory board
 - Mandated by federal and State statute
 - Advises the Legislature on priority issues

- The Data Notebook is used to:
 - Assist local boards to meet legal mandates to review performance data every year
 - Serve as an educational resource on behavioral health data
 - Obtain opinion of local boards on specific topics
 - Identify unmet needs and make recommendations

- Input needed from BHAB to complete questions
- Information will be analyzed by California Mental Health Planning Council to create a report to inform policymakers, stakeholders and the public
- 2017 Topic: BHS system of care for older adults
 - 2016: Children/Transition Age Youth
 - 2015: Justice-Involved Population

- Approximately 5,592 clients in FY 15-16
- FSP/ACT - *Community Research Foundation - Senior Impact*
