and Young Adults with
Full Scope Medi-Cal

County of San Diego
Behavioral Health Services

SERVICES

TBS is a short term one-to-one behavioral mental health coaching service for full-scope Medi-Cal (EPSDT) children, youth, and young adults up to age 21 and their families or caregivers with moderate to severe emotional or behavioral challenges.

TBS uses a wide variety of behavioral interventions to support ongoing Medi-Cal therapeutic services. **TBS** is only offered if a child, youth or young adult is receiving other mental health treatment services.

Short-term intensive coaching from trained behavioral coaches help achieve short-term treatment goals, stabilize placement and maintain the least restrictive level of care possible by resolving problem behaviors.

Coaching services are provided at agreed upon times - up to seven days a week. Services can occur in home settings, the community and group home placement.

OUR GOAL

The goal of **TBS** is to focus on those behaviors, attitudes and actions that are putting a child, youth or young adult's living situation at risk, assist them to gain the coping skills necessary to handle life's challenges or to help them be successful with a move from a higher to a lower level of care.
