

BHS PROVIDER UPDATES

2015-10

Pathways to Well-Being eLearning Booster

Pathways to Well-Being and the Academy for Professional Excellence are pleased to announce the availability of the *Pathways to Well-Being* eLearning Booster that will serve as technical assistance and also as a procedure refresher for BHS providers. Many providers attended the *Pathways to Well-Being* Module trainings in 2014 but may not have started working with eligible youth until recently.

This eLearning course will provide the purpose and core values of *Pathways to Well-Being*. It will also include identification of children and youth who may be eligible for Enhanced Services as well as strategies for successful collaboration with Child Welfare Services workers and for successful partnerships with children/youth and families. Included is information about Child and Family Teams, times of transitions, resources, and forms.

This eLearning is designed to allow a provider to complete the training from beginning to end or just click on various topics of interest. Please check it out at:
