INTRODUCTION

This document provides families involved with Child Welfare Services with resources to help support them through the Coronavirus (COVID-19) pandemic outbreak. For additional resources, please contact 2-1-1.

Background of the COVID-19 Pandemic

Coronavirus disease 2019 (also known as COVID-19) is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China. The virus is a respiratory illness known to spread mainly between people who are in close contact with one another through respiratory droplets produced when an infected person coughs or sneezes.

Transmission can also occur if a person touches their face after contact with surfaces or objects where the virus is living. Symptoms of the illness include fever, cough, and shortness of breath.

Testing Information

- It is always recommended that parents first contact their child's pediatrician for testing advice.
- Call 2-1-1 to find and schedule a test.
- Most youth and their caregivers can receive testing through the [COVID-19 Collaborative for Children](#) in partnership with Rady Children's Hospital. Contact your Rady pediatrician or e-mail covidcollaborative@rchsd.org for more information.
- [New COVID-19 Testing Flyers](#) (English/Spanish)
- New COVID-19 Testing Requirements for All Air Passengers Arriving in the United States [on the CDC website](#)
- Youth and caregivers covered by Kaiser Permanente should consult with their pediatrician or physician provider directly, or through www.kp.org.

Testing for Students

Testing for students is available as an option for children from Kindergarten to 18 at [any county and state testing sites](#).

General Hygiene Guidelines

- **Wash Hands Regularly and Thoroughly:** Wash your hands regularly and ask the children in your house to do the same, especially after sneezing, coughing or being in a public place. To make sure the family is washing hands thoroughly, you can practice washing together and teach each other a 20-second song. Children are

taught the correct length of time to wash their hands using hard to forget songs like Baby Shark and Happy Birthday. Each generation has music that can help pass the time too, whether it's the beginning of Blue Suede Shoes or Splish Splash I Was Taking a Bath, sing together and share a smile.

- **Avoid Touching Face:** Avoid touching your own eyes, nose, or mouth with unwashed hands. Remind children of the same. For school-age children, you can make this into a game. For younger children, do your best to have them wash hands regularly after play and before and after eating.
- **Clean and Disinfect Daily:** Focus your daily cleaning and disinfecting on high-touch surfaces in common areas in your home such as tables, hard-backed chairs, doorknobs, light switches, remotes, handles, desks, toilets, and sinks. For small children focus on their most popular toys. For older children, remind them to regularly wipe down their phones, devices and computer keyboards.

Guidelines for Isolation/Quarantine

In circumstances where a child has symptoms of COVID-19, the Center for Disease Control recommends that caregivers contact the child's health care provider and monitor the child for worsening symptoms. Caregivers should do the following:

- Have healthcare providers' contact information on hand for all members of the household.
- If symptoms worsen, call the individual's healthcare provider. For medical emergencies, call 911 and notify the dispatch personnel that they have, or are suspected to have, COVID-19.
- Consistent with public health guidance, individuals who are sick should have a separate bedroom, and, if possible, bathroom, and should avoid sharing personal household items, like dishes, towels, and bedding.
- As a family, you can plan and make decisions now that will protect you and your family during a COVID-19 outbreak. Please see this link for more information: <https://www.cdc.gov/coronavirus/2019-ncov/community/home/index.html>

Some things to consider:

- Keep an adequate supply of water, food, pet food, and household supplies in the home, including connecting families with available community resources.
- Ensure access to food and medications.
- Keep a working thermometer and over-the-counter medicine to treat fevers on hand.
- Create an emergency contact list of family members, friends, neighbors, health care providers, teachers, employers, and others.
- Ask about employers' preparedness plans, including sick-leave policies and telework options.
- Learn about the preparedness plans of your children's childcare facilities, schools, and/or colleges.
- Maintain a routine with educational activities. Talk with the child's teacher to obtain grade appropriate activities. Include ideas for keeping children busy and active and for managing stress while under stay at home orders.
- Develop back-up plans for childcare during temporary school closures, or in the event a primary caregiver becomes ill.
- If the primary caregiver becomes ill, who will supervise children?
 - Who can bring meals and/or provide food?
 - Who can care for the children if the caregiver is hospitalized?
 - What is the plan to keep the ill person away from others?

RESOURCES

Emergency Preparedness

- Download the [SDEmergency App](#)

Get the latest emergency updates and interactive information to help you prepare and respond to an emergency.

- Sign up for [AlertSanDiego](#)
Receive notifications about emergencies. Especially important to sign up if your home does not have a landline.

Crisis Lines

- Crisis Text Line provides free, text-based support 24/7.
Text MHA to 741741 and you will be connected to a trained Crisis Counselor. San Diego.
- Access & Crisis Line or (888) 724-7240 TDD/TTY Dial 711 7 days a week/24 hours a day. Live chat available Monday-Friday 4:00 p.m. – 10:00 p.m.

Temporary Lodging

Technology Resources

Access to the internet is important for getting current up to date information about the Coronavirus and available resources and supports. It is also important for many students who will be doing homework at home and/or distance learning projects and for older adults to stay connected. You may want to ask a trusted friend or family member with internet access to help you sign up.

- Free or Discounted Internet Access: Comcast is offering 60 days of free internet access and Spectrum offers discounted internet access. Other internet providers may be offering this as well. Check with the companies that serve your community. With any service, be sure to terminate after 60 days so you are not charged for

service beyond the free period.

- For more information on Comcast, visit <https://corporate.comcast.com/covid-19?linkId=84300755> or call 1-855-8-INTERNET (1-855-846-8376) to confirm eligibility and apply.
- To learn if you qualify for Spectrum’s discounted internet visit: <https://www.spectrum.com/browse/content/spectrum-internet-assist.html> or you can call 1-844-525-1574 to start the qualification process.
- Internet for Students: This article highlights internet options for accessing the internet for students on a low income: <https://www.reviews.com/blog/internet-options-for-students-on-low-income/>

Activities for Children at Home

Below are some of the many free resources for activities at home:

- [Caribu](#): Offers 60 days free access to the online games and activities available to families
- [Free Educational Subscriptions](#): Provides a list of education companies offering free subscriptions due to school closing
- [Haskins Global Literacy Library: Resources to Build a Reading Brain!](#)
- [Learning Links](#): Activities for children grades K-12
- [Free Storytelling Online](#): Online books available for children
- [Multilingual Coloring Book for Explaining Coronavirus](#): A short book available in 11 languages and offers a place for children to express their feelings about the coronavirus and how it affects their families. It explains what the virus is and how children can help stop its spread.
- [Scholastic Learn at Home](#): Provides 20 days’ worth of active learning journeys designed to reinforce and sustain educational opportunities for those students who are unable to attend school.
- [Smithsonian Distance Learning](#): Offers millions of digital resources from across the Smithsonian's museums, research centers, libraries, archives, and more.

Stay Play Grow was developed by the Early Learning Lab, a team of early childhood experts, women, and working moms. We designed the app to ensure parents and caregivers of children ages 0-5 have quality and easy-to-access re-sources when they need them most. The app offers content for families in English and Spanish.

- [The Early Learning Lab, Stay Play and Grow App](#)
This resource library is designed to help parents and educators easily navigate through the overwhelming amount of information available online on promoting literacy development in children of all ages.

[San Diego Latino Coalition](#)
[English Info Sheet](#) | [Spanish Info Sheet](#)

San Diego Advocates for Youth (SAY San Diego) is working with the Chicano Federation and other agencies as part of the newly named San Diego Latino Health Coalition. The coalition is promoting a Community Education Session to educate San Diegans about COVID-19 and ways to stop the spread. These sessions will be held monthly through the end of the calendar year to offer up-to-date information about COVID.

This initiative addresses the disproportionate impact COVID-19 has had on the Latino community and the long-term effects associated with the pandemic. Their mission is to increase access to vital COVID-19 information and tools and the organization has established **Resource Centers throughout the County:**

- Chicano Federation
- SY Health Resource COVID-19 Center Chula Vista
- SY Health Resource COVID-19 Center Oceanview
- South Bay Community Services
- MAAC, Vista
