Introduction

The Community Health Statistics Unit (CHSU), under the Health and Human Services Agency (HHSA) Public Health Services Division, was formed in 2005 to provide a single point of contact for public health data and support to the HHSA Regions and their communities. CHSU generates publications including the Demographic Profiles and the Community Health Profiles, topic specific reports (e.g., older adult falls, economic burden of disease, health disparities, and health status), health briefs, fact sheets, atlases, and the demographic profiles, all of which are available at www.sdhealthstatistics.com.

Limitations of data¹

The *2022 San Diego County Middle Eastern and North African Population by Ancestry and Place of Birth* explores the Middle Eastern and North African (MENA) population by ancestry and place of birth in lieu of a direct method to estimate this population. Currently, the U.S. government classifies Middle Eastern and North African persons as White per Directive No. 15: Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity (SPD 15)¹. Directive No. 15 was developed by the Office of Management and Budget (OMB) in 1977 to “ensure the comparability of race and ethnicity across Federal datasets and to maximize the quality of that data by ensuring that the format, language, and procedures for collecting the data are consistent and based on rigorous evidence.” These standards have historically only been revised once in 1997 since its development in 1977. Data on this document reflect the OMB's 1997 SPD 15.

Race and ethnicity are considered fluid sociopolitical constructs. On January 27th, 2023, OMB released a notice and request for comments on revisions to the current Federal standards on race and ethnicity to capture the societal, political, economic, and demographic shifts in the United States since 1997. The purpose of these revisions is to capture changes in the population in addition to the evolving needs and uses of data.

One of the initial proposals of the Federal Interagency Technical Working Group on Race and Ethnicity Standards is for MENA to become a new and separate minimum reporting category. The arguments for a MENA category include recognizing this community who does not identify, or are seen, as White and to differentiate this population from White persons of European ancestry who may not have the same shared lived experience. It is critical to remember that this only an initial proposal of revisions to the SPD15 to be concluded by the Summer of 2024. Should this proposal move forward, there may be direct estimates for MENA people in the future.

¹Office of Information and Regulatory Affairs, Office of Management and Budget, Executive Office of the President. (2023, February 27). Initial Proposals For Updating OMB's Race and Ethnicity Statistical Standards. *Federal Register*. Vol.88/No.18/Notices. Available at <https://www.federalregister.gov/documents/2023/01/27/2023-01635/initial-proposals-for-updating-ombs-race-and-ethnicity-statistical-standards>

Data source: U.S. Census Bureau; 2018-2022 American Community Survey 5-Year Estimates.

For researchers: The U.S. Census Bureau publishes a margin of error (MOE) for each ACS estimate. For the purposes of these profiles, the MOEs are not considered as these are the best estimates for our geographies.

People Reporting Ancestry, 2022*^

*Ancestry refers to a person’s ethnic origin which may reflect place of birth or that of previous generations of their family.

^Includes all people who reported each ancestry, regardless of whether it was their first or second ancestry, or part of a single or multiple response. People can be listed twice in this table, and therefore the sum of the rows would not equal the group or the total population.
