Methodology

Data is downloaded for each of the 18 incorporated cities in San Diego County, California, and the United States. Wherever possible, the data for the Unincorporated Area of San Diego, which is managed by San Diego County, is derived from the data available.

Please note that the indicators in the demographic profiles are reviewed every year. Indicators will be added per number of requests showing the need for these to be included and/or modified as needed.

For the 2017-2021 version, no indicators were modified or added.

This indicator refers to the highest level of education completed in terms of the highest degree or the highest level of schooling completed for the population 25 years and older. This is different from the level of schooling that an individual is attending (enrolled in).

How to interpret these data: In 2021, nearly 9 out of 10 adults (88.3%) had at least a high school diploma or GED, while over 2 out of 5 adults (40.3%) held a bachelor's or higher degree in San Diego County.

Educational Attainment Among Population 25 Years and Older by Municipality, 2021

Source: U.S. Census Bureau, 2017-2021 American Community Survey 5-Year Estimates, Table DP02.

Source: U.S. Census Bureau; 2017-2021 American Community Survey 5-Year Estimates, Table DP02.

Questions regarding current marital status and marital history were asked of persons 15 years and older. This indicator provides the number of persons 15 years and older and the percent in each marital status category.

How to interpret these data: Among persons 15 years and older, over one-third (36.2%) of the population in San Diego County were single and never married in 2021.

Geography	Population Age 15+	Single, Never Married	Married	Separated	Widowed	Divorced

Marital Status Among Population 15 Years and Older
by Municipality, 2021

Source: U.S. Census Bureau, 2017-2021 American Community Survey 5-Year Estimates, Table DP02.
Prepared by: County of San Diego, Health and Human Services Agency, Public Health Services, Community Health Statistics Unit, 2023.

Single Parent Households

Source: U.S. Census Bureau; 2017-2021 American Community Survey 5-Year Estimates, Table S1101.

Note: Own children are never-married sons and daughters under the age of 18, including stepchildren and adopted children, of the householder or married couple.

This indicator provides the number of households with own children under the age of 18 along with the percentage of these that are single parent households. The percentages are of households with children under 18 years of age, not out of all housing units. Further, it specifies the percentages of households with children under 18 years of age that are single parent father or single parent mother households. Therefore, sum of single father household and single mother households will add to percent of single parent household with own children under 18.

How to interpret these data: In 2021, there were 327,118 households with own children under the age of 18 in San Diego County; of these, 7.5% were single father households and 18.8% were single mother households, for a total of 26.3% single parent households out of households with children under the age of 18.

Geography	Households with Own Children Under 18 Years Old	Single Parent Households from Households with Own Children Under 18	Single Father Household	Single Mother Household

Percent of Single Parent Households by Municipality, 2021

*The percentages are of households with children under 18 years of age, not out of all housing units.

Source: U.S. Census Bureau, 2017-2021 American Community Survey 5-Year Estimates, Table S1101.

Prepared by: County of San Diego, Health and Human Services Agency, Public Health Services, Community Health Statistics Unit, 2023.

Vehicles in Housing Unit

Source: U.S. Census Bureau; 2017-2021 American Community Survey 5-Year Estimates, Table DP04.

This indicator provides the percentage of occupied housing units by the number of vehicles available. There are four vehicle availability categories: no vehicles, one vehicle, two vehicles, and three or more vehicles.

How to interpret these data: Of the 1,139,899 occupied housing units in San Diego County in 2021, over one-quarter (25.1%) had 3 or more vehicles.

Geography	Occupied Housing Units	No vehicle	1 vehicle	2 vehicles	3+ vehicles

United States	264,087,642	157,510,982	9,161,615	1,196,529	5.5%

For this indicator, labor force consists of persons 16 years and older classified in the civilian labor force, plus members of the U.S. Armed Forces (people on active duty with the United States Army, Air Force, Navy, Marine Corps, or Coast Guard).

*Eligible labor force includes employed civilians, unemployed, and persons in the armed forces.

All civilians 16 years old and over were classified as unemployed if at the time of the survey they did no work as paid employees during the past week, were not actively looking for work during the past month but were available to accept a job. Also included as unemployed are civilians who did not work at all during the reference week, were waiting to be called back to a job from which they had been laid off and were available for work except for temporary illness.

‡Percent unemployed was derived from the number of unemployed persons out of the 16 year and older *eligible labor force**.

Note: This unemployment rate is based on a 5-year average (2017-2021) and may not be comparable to unemployment rates from other sources with different methodology and/or unemployment definitions, including the unemployment *Live Well San Diego* Indicator. Unemployment may be influenced by seasonal variability.

How to interpret these data: Between 2017-2021, the 5-year average unemployment rate in San Diego County was 6.2%.

Source: U.S. Census Bureau; 2017-2021 American Community Survey 5-Year Estimates, Table DP03.

This indicator presents the occupational groups for the civilian employed persons over the age of 15. Occupation refers to the *type of employment* that a person does or had to earn a living during the previous week, or where the person worked the greatest number of hours for those that had at least 2 jobs. For people who reported having a job within the last 5 years, data reflects occupation at their last job.

For more information and/or a complete list of descriptions and more information on this topic, please visit <https://www.census.gov/topics/employment/industry-occupation/about/occupation.html> or <https://www.census.gov/topics/employment/industry-occupation/about.html>

How to interpret these data: While it may vary by municipality, 64.6% of jobs in San Diego County overall were in the management, business, science, and arts (44.3%) and sales and office (20.3%) occupations in 2021.

Geography	Civilian employed population 16 years and over	Management, business, science, and arts occupations	Service occupations	Sales and office occupations	Natural resources, construction, and maintenance occupations	Production, transportation, and material moving occupations

Occupation by Industry

Source: U.S. Census Bureau; 2017-2021 American Community Survey 5-Year Estimates, Table DP03.

This indicator breaks down occupation of workers, ages 16 and over, by type of industry. Industry refers to the *type of activity* at a person’s place of work during the previous week, or where the person worked the greatest number of hours for those that had at least 2 jobs. For people who reported having a job within the last 5 years, data reflects industry of their last job. For more information and/or a complete list of descriptions and more information on this topic, please visit <https://www.census.gov/topics/employment/industry-occupation/about/industry.html> or <https://www.census.gov/topics/employment/industry-occupation/about.html>.

How to interpret these data: Over 1 out of 5 civilian workers aged 16 and over (21.4%) in San Diego County worked in the educational services, and health care and social assistance industry in 2021.

Geography	Agriculture, forestry, fishing and hunting, and mining	Construction	Manufacturing	Wholesale trade	Retail trade	Transportation and warehousing, and utilities	Information	Finance and insurance, and real estate and rental and leasing	Professional, scientific, and management, and administrative and waste management services	Educational services, and health care and social assistance	Arts, entertainment, and recreation, and accommodation and food services	Other services, except public administration	Public administration

Labor Force by Industry by Municipality, 2021

Commute to Work

Source: U.S. Census Bureau; 2017-2021 American Community Survey 5-Year Estimates, Table DP03.

This indicator provides the principal mode of travel or type of transportation the worker usually used to get from home to work. For those who used more than one type of transportation to get to work, it is the one they used most often (greatest number of days). For those that used more than one type of transportation to get to work every day, it is the type of transportation used for the longest distance during the work trip.

How to interpret these data: In 2021, an estimated 71.6% of San Diego County workers drove to work alone and 8.4% carpooled.

Geography	Workers Age 16+	Drove alone	Carpooled	Public transportation	Walked	Other	Worked at home
City of Carlsbad	55,045	69.2%	5.2%	1.0%	1.4%	1.5%	21.7%
City of Chula Vista	127,396	75.5%	9.9%	2.6%	1.4%	1.9%	8.7%

City of Escondido	71,586						

Number of Households by Household Income

Source: U.S. Census Bureau; 2017-2021 American Community Survey 5-Year Estimates, Table DP03.

This indicator provides information on the number and percentage of households by total income of a household over the past 12 months. Household income includes the income of householder and all other individuals 15 years and older in the household, whether they are related to the householder or not. It excludes income of individuals who did not live in the household at the time of the survey response.

How to interpret these data: Nearly 1 in 5 (18.9%) households in San Diego County had a household annual income under \$35,000 in 2021.

Geography	Under \$35,000		\$35,000-under \$50,000		\$50,000-under\$75,000		\$75,000-under \$100,000		\$100,000-under \$150,000		\$150,000 and Higher

Income and Benefits

Source: U.S. Census Bureau; 2017-2021 American Community Survey 5-Year Estimates, Table DP03.

This purpose of this indicator is to provide information on income and benefits in households. Specifically, the percentage of households that receive earnings, social security income, supplemental security income (SSI), cash public assistance income, retirement income, and SNAP/food stamps. These income sources are not mutually exclusive; that is, some households may have received income from more than one source. The total number of households for reference.

How to interpret these data: An estimated 26.4% of households received Social Security and an estimated 21.2% of households received retirement income other than Social Security in San Diego County in 2021.

Geography	Total Households	Percent of Households
