

# 2023 Map Atlas

## Flu/Pneumonia

County of San Diego | Health and Human Services Agency | Public Health  
Services | Community Health Statistics Unit

October 2025

## Data Sources

**Death\*** is based on underlying cause of death among San Diego County residents.

Rates per 100,000 residents and rounded to integer. Starting with data year 2022, all rates based on events <20 are suppressed due to statistical instability. Events fewer than 11 are suppressed. Maps are only produced for conditions/outcomes with SRA-level rates. Some sections may have no maps.

Sources: California Department of Public Health, Center for Health Statistics, Office of Health Information and Research, Vital Records Business Intelligence System (VRBIS), 2023. San Diego Association of Governments (SANDAG) Population Estimates, 2023 (v1/2025). 2023 population estimates were derived from the 2020 decennial census.

\*For all opioid overdoses, COVID-19, heat illness/injury, hip fractures, and traumatic brain injuries, death rate is based on the multiple/contributing cause of death among San Diego County residents.

**Hospitalization** refers to treatment at a general acute care facility in San Diego County.

Rates per 100,000 residents and rounded to integer. Starting with data year 2022, all rates based on events <20 are suppressed due to statistical instability. Events fewer than 11 are suppressed. Maps are only produced for conditions/outcomes with SRA-level rates. Some sections may have no maps.

Sources: California Department of Healthcare Access and Information (HCAI), 2023 Patient Discharge Database. San Diego Association of Governments (SANDAG) Population Estimates, 2023 (v1/2025). 2023 population estimates were derived from the 2020 decennial census.

**Emergency Department (ED) Discharge** refers to treatment at an ED facility in San Diego County.

Rates per 100,000 residents and rounded to integer. Starting with data year 2022, all rates based on events <20 are suppressed due to statistical instability. Events fewer than 11 are suppressed. Maps are only produced for conditions/outcomes with SRA-level rates. Some sections may have no maps.

Sources: California Department of Healthcare Access and Information (HCAI), 2023 Emergency Department Discharge Database. San Diego Association of Governments (SANDAG) Population Estimates, 2023 (v1/2025). 2023 population estimates were derived from the 2020 decennial census.

**In-Patient Treatment** refers to treatment at a psychiatric care or chemical rehabilitation facility in San Diego County.

Rates per 100,000 residents and rounded to integer. Starting with data year 2022, all rates based on events <20 are suppressed due to statistical instability. Events fewer than 11 are suppressed. Maps are only produced for conditions/outcomes with SRA-level rates. Some sections may have no maps.

Sources: California Department of Healthcare Access and Information (HCAI), 2023 Patient Discharge Database. San Diego Association of Governments (SANDAG) Population Estimates, 2023 (v1/2025). 2023 population estimates were derived from the 2020 decennial census.
