Description:

This Atlas is designed to identify and locate vendors who accept Women, Infant and Children (WIC) Supplemental Nutrition Program vouchers*. The goal of the WIC program is to provide supplemental nutrition to low-income women and young children (under age 5). In addition to vouchers, the WIC program offers other services designed to improve the health of participants during key periods of growth and development.

Page 2 shows an overview map of San Diego County, subdivided using the grid system from The Thomas Guide, which is used to create and organize street level views of the locations of WIC vendors.

Pages 3-310 Show maps of individual Thomas Guide Grid Pages with locations of WIC vendors.

Pages 311-322 Show a Directory of Vendors. The list of Vendors is sorted first by Region, then by Grid Page, and then by Vendor ID.

Instructions for Use: Locating Vendors by Region and Grid Page

- Identify the Region in which you want to find vendors.
- Go to the Directory to find the map Grid Pages which correspond to the Region, or part of San Diego County, in which you are interested.
- Each individual Grid Page shows a street-level map of a small area of the County. Vendors are identified by ID number, and may be looked up in the Directory. Mass transit routes and zip code boundaries are shown for convenience.

Refer to the Vendor ID number to find out the name, exact address, and telephone number for each Vendor listed in the Vendor Directory. The Vendor Directory is organized by HHSA Region, then by Thomas Guide Grid Number, then by Vendor ID number.

Note: Some of the maps have so many vendors shown, that the symbols overlap each other and you cannot easily read the Vendor ID number. Use the street names and visible IDs, as well as the Vendor Directory, to pinpoint the location and ID of any of these obscured Vendor symbols.

*Data source: California Department of Public Health, publication date April, 2010, <http://gis.cdph.ca.gov/cnn/> (Accessed January, 2011).

This map series uses an index map and detailed maps.

The Index Map, based on the Thomas Bros. Guide, is used to find an area of interest in which to view detailed “street view” maps. Each grid on the Index Map is labeled with a number which corresponds to the page number on each detailed map.

Directions:

Begin on the Index Map (Fig.A), to identify an area of interest, and note the grid number/s. Page through the atlas to the map with the corresponding grid numbers. Each detailed map has the grid page on the map image, as well as at the top right corner of each atlas page (Fig. B).

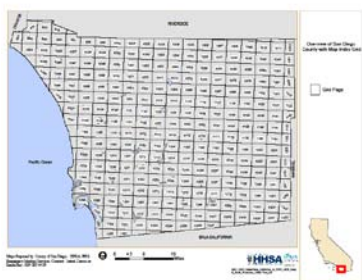

Fig A.

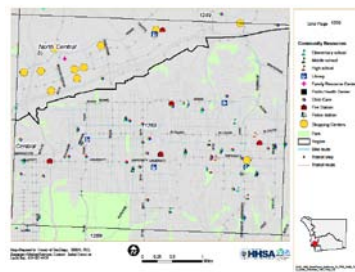

Fig.B

You may adjust your page view, or use the map interactively to adjust layers or maps elements displayed (interactive use allows user to turn layers on/off, for example to see overlapping information more clearly or reduce the information shown).
