About the Data

The American Community Survey (ACS) is the largest household survey conducted by the U.S. Census Bureau. The ACS collects sociodemographic and economic data annually; topics include educational attainment, income, poverty, disability, health insurance, workforce and more to describe the population living in the United States.

The following profiles use ACS's data on total and/or special populations to derive the variables on these profiles for the 18 cities in San Diego County.

Limitations to the data

The American Community Survey (ACS) is the most comprehensive data source for sociodemographic data at a variety of geographic levels including national, state, and city levels. The Census Bureau approaches more than 3.5 million households to participate with the ACS survey and uses it to derive population estimates. However, some estimates may be less accurate due to statistical limitations and sampling variability. This variability can be measured by margins of errors and confidence intervals.

- Even when the sample for ACS is chosen at random (to ensure representation of the actual population), the estimates between the sample and the actual population can have some level of difference or variability, also known as margin of error.
- The standard confidence interval that the Census Bureau uses is 90%. This means that if the survey was conducted repeatedly using the same techniques, the survey would yield similar results 90% of the time.
- Ideally, surveys that yield smaller margin of errors and narrower confidence intervals are considered more accurate reflections of the population. Thus, it is important to note that some indicators in the ACS can have smaller sample sizes yielding wider confidence intervals and higher margin of errors. Therefore, while some of the ACS estimates presented in these profiles might have some variability or might not be exact, they are the best available representations of populations at the city level.

More American Community Survey (ACS) data available online at <https://www.census.gov/>, using American FactFinder query system.

For more information regarding the methodology of the ACS Survey, please go to <https://www.census.gov/acs/www/about/acs-information-guide/flipbook/files/inc/d6425564bc.pdf>.

Table of Contents

Basic Population Characteristics

Total Population	1
Age	2
Gender	3
Race/Ethnicity	4
Asian/Pacific Islander Population	5-7
Language Spoken at Home	8-13
School Enrollment (K-12)	14
Education Attainment	15
Marital Status	16
Single Parent Households	17
Vehicles in Household	18

Income and Poverty

Labor Force	19
Labor Force by Occupation	20
Occupation by Industry	21
Ways of Commuting to Work	22
Household Income	23
Median and Persons Per Household Income	24
Owner vs. Renter Occupancy	25
Median Rent and House Value	26
Housing Cost as Percent of Household Income	27
Poverty Level	28
Poverty Level by Age	29
Population and Families Living Below Poverty	30

Special Populations

Seniors: Household Type	31
Seniors: Labor Force and Poverty	32
Disability	33
Disability by Age	34
Foreign Born Population	35

Special Populations (Continued...)

Grandparents Living with Grandchildren Under 18	
Years by Responsibility for Grandchildren	36
Health Insurance Status	37
Income and Benefits	38
Food Stamps/SNAP/CalFresh Receipt and Eligibility	39

Veterans

Veteran Population and by Gender	40
Veterans by Race/Ethnicity	41
Veterans by Age Group	42
Veterans: Median Income and Poverty	43
Veterans: Educational Attainment	44
Veterans: Period of Service (Detailed)	45
