

COVID-19: Get tested to prevent further spread

Testing allows early detection of the disease. Speak to your medical care provider about testing:

If you have
COVID-19
symptoms*

If you have been
exposed to someone
with COVID-19,
regardless of any
symptoms yourself

If you are in
a **high-risk****
group
or setting

COVID-19 testing is available throughout San Diego County. Visit 211sandiego.org to find a FREE testing site near you!

*Includes fever, cough, and shortness of breath.

**Risk varies based on a variety of factors, including but not limited to, an individual's age, health, race/ethnicity, job and/or geography.

Refer to coronavirus-sd.com for a full list of symptoms and detailed information on high-risk groups and settings.
