

CHILDREN RECEIVING SERVICES BY RACE/ETHNICITY

Percentage of Children Receiving CLPPP Services By Race/Ethnicity, 2020-2024, N=191

Includes children with a newly identified venous BLL 9.5 mcg/dL or greater, excluding those with unknown race and ethnicity (N=50). Race and ethnicity are based on self-identification; those with unknown race/ethnicity are primarily those who did not receive a home visit where information could be obtained.
