

CHILDREN RECEIVING SERVICES BY RACE/ETHNICITY

Percentage of Children Receiving CLPPP Services by Race/Ethnicity, 2017-2021, N=223

Includes children with a newly identified venous BLL 9.5 mcg/dL or greater, excluding those with unknown race and ethnicity. Race and ethnicity are based on self-identification; those with unknown race/ethnicity are primarily those who did not receive a home visit where information could be obtained.
