Other/Multiple Race	74,777 (2.9%)	65,491	14.2%	87.6%	875.8
Race and Ethnicity Unknown		4,842	1.1%		

Individuals vaccinated by Veterans Affairs or Department of Defense are not included.

Data are preliminary and subject to change.

*Rates are calculated using 2019 population estimates from the San Diego Association of Governments.

**HHS Region determined by resident zip code or city; some zip codes not available.

***Persons of Hispanic/Latino ethnicity may belong to any race group. All categories except Hispanic/Latino include persons for whom race is known but ethnicity is non-Hispanic or unknown. SDIR categorizes "Multiple Races" as "Other Race" so all people who report being multiple races are categorized as "Other Race." "Other Race" may not have a standardized definition across data collecting entities or among patients reporting their own demographics.

^The percentage and rate of the population vaccinated with at least one dose of COVID-19 vaccine may approach, or exceed, 99% or 999 per 1,000 San Diego residents aged 18 years and older. The most recent age, gender, region, and race/ethnicity population are 2019 estimates, which may under estimate the current population. When these demographics are analyzed, the population estimates may not reflect social and environmental changes of a community, possibly leading to an under- or overestimate of a population.

Data Source: San Diego Immunization Registry, SANDAG 2019 Population Estimates (Prepared June 2020). Total population 18 years of age and older = 2,594,017.

Prepared by the County of San Diego, Health and Human Services Agency, Public Health Services, Epidemiology and Immunization Services Branch
