Data are preliminary and subject to change.
 COVID-19 vaccines are not approved for those under age 6 months at this time.
 Zip code is zip code of residence, which may not be location of vaccination.
 Individuals vaccinated by Veterans Affairs or Department of Defense are not included.
 An additional 242,114 individuals of whose current residency status is unknown and 30,841 with missing residency information received at least one dose in San Diego County.
 *A person is considered fully vaccinated 14 days after they receive either their second dose of an mRNA or AstraZeneca vaccine or one dose of J&J.
 **Booster eligibility is updated each week as the number of San Diego County residents who are fully vaccinated and eligible to receive a booster dose. Individuals are eligible for a booster dose if 1) they are 5 years of age and older AND 2) at least 5 months have passed after the vaccination date of the second mRNA dose (Moderna or Pfizer-BioNTech) or at least 2 months have passed since the first Janssen/Johnson & Johnson dose.
 ***Rates are calculated using 2019 population estimates from the San Diego Association of Governments.
 ****Booster rates are calculated based on the booster eligible population, which is updated weekly based on most recent data available.
 ^The percentage and rate of the vaccinated population may approach, or exceed, 99% or 999 per 1,000 for San Diego residents 6 months old and older in a particular zip code. The most recent population estimates are 2019 estimates, which may underestimate the current population. The population estimates may not reflect social and environmental changes of a community, possibly leading to an under- or overestimate of a population.
 ^^Rates are not calculated for zip codes or booster eligible populations with a population estimate under 1,000.
 ^^Rates based on small vaccination counts may vary considerably and should be interpreted with caution.
 Data source: California Immunization Registry (CAIR), SANDAG 2019 Population Estimates (Prepared June 2020). Total population 6 months of age and older = 3,351,784.
 The San Diego Immunization Registry (SDIR) transferred to the California Immunization Registry (CAIR) on Monday, April 25, 2022. All vaccination data is now being pulled from CAIR. Due to differences in the programming of each system, the overall count of vaccinations, count of vaccinated individuals, and demographic data may differ slightly from previously-reported data.
 Prepared by the County of San Diego, Health and Human Services Agency, Public Health Services, Epidemiology and Immunization Services Branch.
