Other Race	6	3.1%
Race/Ethnicity Unknown	5	

*Confirmed cases are based on whole genome sequencing (WGS) results, which are not available until approximately 2-4 weeks after initial testing. In addition, there are 67 probable cases that are epidemiologically linked to a confirmed case as a household contact. These probable cases are either pending WGS confirmation or cannot be sequenced due to sample unavailability.

**At this time, the only variant of concern identified in San Diego County is B.1.1.7. There are zero known cases of P1 or B.1.351 variants.

***If case did not have symptoms or illness onset date is unavailable, the earliest of specimen collection date, date of death, or date reported is used instead

†Persons of Hispanic/Latino ethnicity may belong to any race group. All categories except Hispanic/Latino include persons for whom race is known but ethnicity is non-Hispanic or unknown.

Data are preliminary and subject to change.
