

Measles can be *serious*.

Ear infection

Diarrhea and dehydration

**Encephalitis
(brain swelling)**

**SSPE
(brain disorder)**

Pneumonia

A young boy and girl are sitting together, looking at a bandage on the boy's arm. The boy is wearing a green sweater and the girl is wearing a pink sweater. They are both looking down at the bandage with interest. The background is a brick wall.

**Protect your child against
measles with 2 doses
of the *MMR vaccine*.**
