Zip Code Boundaries

Vaccination field events include stationary mass vaccination clinics, vaccination efforts using a mobile van, and non-stationary “foot team” efforts in the field.

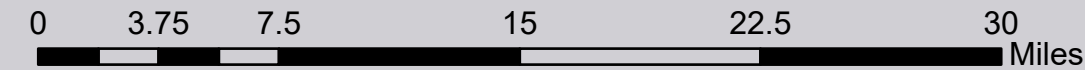

Field vaccinations are the number of vaccinations given during vaccination field events.

Total vaccinations administered represents total vaccinations administered countywide. These include but are not limited to vaccinations from vaccination field events, vaccinations administered in clinical settings (i.e., Jails, Public Health Centers, Emergency Departments, Community Clinics, Pharmacies), vaccinations given to at-risk professionals, and vaccinations given to individuals after exposure to a hepatitis case.

Zip Codes with a population of less than 5,000 residents are combined with neighboring Zip Codes.

Data is preliminary and subject to change based on new information.
