MONICA MONTGOMERY STEPPE
SAN DIEGO COUNCILMEMBER • DISTRICT 4
FREE MTS AND NCTD RIDE TO VACCINATION APPOINTMENT

MTS & NCTD are offering free rides for everyone in the region who needs a lift to their vaccine appointment. Ride any bus, trolley, SPRINTER or COASTER for FREE with proof of vaccine appointment.

MTS has created a transit trip planner with vaccine sites to help residents get to their appointments. For more information, visit the MTS webpage.
The Board of Supervisors has expanded COVID-19 Rental Assistance Program

• The County of San Diego Emergency Rental Assistance Program provides grants of up to $3,000 to cover rent for eligible households financially impacted by the COVID-19 pandemic.

www.sdhcd.org
FAITH-BASED MENTAL HEALTH TRAINING

- Join this free 10-day webinar via Zoom from March 15 – March 26, 2021 from 12:00 PM – 1:30 PM
- Topics include: common mental health disorders, substance abuse, mental illness stigma reduction, depression & faith, and more.
- Register here by Friday March 12, 2021

For more information, please contact:
Maria Halbert: mhalbert@interfaithservices.org
Martha Garzon: mgarzon@interfaithservices.org
COVID-19 Health Equity Pilot Projects

- The California Department of Public Health (CDPH) Office of Health Equity (OHE) will administer $5M to ~16-30 community-based organizations (CBO) led by and serving communities facing inequities in COVID-19 impacts and infection.

- CBOs will use the funding for pilot projects to reduce underlying inequities in the social determinants of health that have contributed to disproportionate harm from the Coronavirus among certain communities.

SUBMISSION DEADLINE: 5:00PM MARCH 2, 2020
You can find more information about the volunteer roles that are available in the links below.

*Medical and Non-Medical Volunteers Needed*

MEDICAL UPDATES
Quarantine is not required for those who gained immunity within 3 months. This includes:

- People who have tested positive for COVID-19 within the past 3 months and recovered, as long as they do not develop new symptoms
  - People who develop symptoms again within 3 months of their first bout of COVID-19 may need to be tested again
- People who have been fully vaccinated against the disease within the last three months and show no symptoms
MONOCLONAL ANTIBODY TREATMENT IS AVAILABLE!

- Monoclonal antibodies are proteins made in the lab to prevent the SARS-CoV-2 virus from getting into your cells and making you sick with COVID-19.

- Patients with symptomatic COVID-19 should talk to their doctor or health provider to see if they are medically eligible for this treatment.

WHO MAY RECEIVE THIS TREATMENT?

- People who have a positive test for COVID-19 and have mild to moderate symptoms, **AND**

- Have had COVID-19 symptoms for less than 10 days, **AND**

- Are at least 12 years old, **AND**

- Are at high-risk of getting very sick from COVID-19
OPEN TO TREAT COVID+ PATIENTS NOW!

- If you are 65 years of age or older and think you qualify, call (619) 685-2500
- If you are younger than 65 years old, you must be referred by a doctor or health provider
- Open 7 days a week
- Located at the Palomar Medical Center Downtown in Escondido
- No cost for treatment of monoclonal antibody IV infusion
- Accepting all medically eligible patients, regardless of health insurance or immigration status
- For patient flyers and additional information visit: www.sandiegocounty.gov/COVIDHealthProfessionals
EMERGENCE OF SARS-COV-2
B.1.1.7 LINEAGE

New virus variants that spread more easily could lead to a rapid rise in COVID-19 cases

NOW, more than ever, it is important to slow the spread

In the U.S.

⚠️ New cases are the highest ever and rising
⚠️ Some health care systems are at or near capacity
⚠️ New variants are emerging that spread more easily

Wear a mask
Stay at least 6 feet apart
Avoid crowds
Get vaccinated when available to you

cdc.gov
bit.ly/MMWR11521
B.1.1.7 will become dominant variant, likely in a matter of weeks

Increased transmission from B.1.1.7 and reopening could further strain health care resources

Need to:
- Reduce transmission (masking, social distancing, etc)
- Ensure a robust vaccination program
- Approach reopening with caution
- Collect data (expansion of variants, reinfections, vaccination efficacy, % previously infected) and revise projections
IMPROVE HOW YOUR MASK PROTECTS YOU

Do

Choose a mask with a **Nose Wire**

Use a **Mask Fitter or Brace**

Check that it fits snugly over your nose, mouth, and chin

Add **Layers** of material. There are 2 ways to layer:

- Use a cloth mask that has multiple layers of fabric
- Wear one disposable mask underneath a cloth mask.
  - The second mask should push the edges of the inner mask against your face

Do NOT

Combine two disposable masks

- Disposable masks are not designed to fit tightly and wearing more than one will not improve fit.

Combine a KN95 mask with any other mask.

- Only use one KN95 mask at a time.

**Tier One**
- Acute care, psychiatric hospitals
- Skilled nursing facilities, assisted living facilities, similar settings
- Paramedics, EMTs, other emergency medical services
- Dialysis centers
- Behavioral health residential facilities

**Tier Two**
- Intermediate care, for persons who need non-continuous nursing supervision, and supportive care
- Home healthcare and in-home supportive services
- Community health workers, including promotoras
- Public Health field staff
- Primary care clinics
- Federally qualified health centers
- Rural health centers
- Correctional facility clinics
- Urgent care clinics
- Behavior health non-residential or outpatient facilities

**Tier Three**
- Specialty clinics, laboratory workers, dental/oral health clinics, pharmacy staff not working in settings at higher tiers, and mortuaries

NOTE: Phases determined by CDC Advisory Committee on Immunization Practices (ACIP) and tiers approved by California Department of Public Health, subject to change.

www.vaccinationsuperstationsd.com
Phase 1B- Vaccinating NOW or NEXT

**Tier One- Vaccinating NOW**
- Individuals aged 65 years and older

**Tier One- Vaccinating NEXT**
- Those at risk of exposure at work in the following sectors: education, childcare, emergency services, and food and agriculture

**Tier Two- Vaccinating NEXT**
- Those at risk of exposure at work in the following sectors: transportation and logistics; industrial, commercial, residential, and sheltering facilities and services; critical manufacturing
- Congregate settings with outbreak risk: incarcerated and persons experiencing homelessness

NOTE: Phases determined by CDC Advisory Committee on Immunization Practices (ACIP) and tiers approved by California Department of Public Health, subject to change
Phase 1C (After 1B)

- Individuals 50-64 years of age
- People 16-49 years of age and have an underlying health condition or disability which increases their risk of severe COVID-19
- Those at risk of exposure at work in the following sectors: water and wastewater; defense; energy; chemical and hazardous materials; communications and IT; financial services; government operations/community-based essential functions

Phase 2

- General population over 16 years of age

Faith leaders and staff are eligible to receive the vaccine during Phase 1C if they do not qualify for an earlier phase.

*We are not in Phase 1C yet

NOTE: Phases determined by CDC Advisory Committee on Immunization Practices (ACIP) and tiers approved by California Department of Public Health, subject to change.
