555 East Valley Parkway
Escondido, 92025
8:00 AM – 8:00 PM

**MARC at
San Ysidro Health**
391 Oxford Street
Chula Vista, 91911
8:00 AM – 5:00 PM

Monoclonal antibodies are proteins made in the lab that help boost the immune system to fight off viruses. Monoclonal antibodies may be used to treat adults and adolescents who are at high risk of getting very sick from COVID-19.

Recently had
a positive
COVID-19 test,
AND

Experienced
first symptoms
in the last 10
days, AND

Are 12 years of
age or older,
AND

In a high risk
category
