

Funding and Volunteers

1. Is there funding to help nonprofits?

Funding continues to be dispensed through traditional channels such as Requests for Proposals (RFPs) and bids for grants through Regional Task Force on Homeless. Requirements for funding and availability of funds will vary based on the source of funding. Please visit www.rtfhsd.org for funding opportunities.

2. Are there any updates on the COVID-19 Emergency Homeless Funding Grant?

The Emergency Homelessness Funds were dedicated to the efforts to provide shelter at the Convention Center. Please visit the [Homeless Sector](#) website for updated information on available funds.

3. How can someone with experience volunteer to conduct outreach?

It is best to contact the individual outreach organization to inquire about volunteer opportunities, as it varies throughout the county and with each organization.

4. How can people with outreach experience volunteer at the Convention Center?

The Convention Center is being staffed by the service providers whose resources and personnel have been consolidated under City contracts. When additional staffing is needed, those needs have been met by City employees and contractors

5. If someone is a public health nurse or other healthcare provider that would like to volunteer their service, where should they go?

If providers want to volunteer, register for the [San Diego Medical Reserve Corps](#). This is not limited to public health nurses; there are roles for other volunteers. There are also opportunities for volunteers to work remotely. To register, visit <https://www.healthcarevolunteers.ca.gov/> and fill out the form. Email the form to mrc-volcoord.hhsa@sdcounty.ca.gov.
