

County of San Diego Elementary School Waiver

Application for a Waiver to Re-open In-Person Instruction for TK-6 Elementary Education.

Please submit one application for each local educational agency or equivalent. If applying on behalf of a school district, please submit one application for the elementary schools in the district that are seeking to reopen for in-person instruction. If applying for an independent, private, faith-based, or charter school, please submit an application for each school.

If all documentation is not included application can not be processed.

Once the waiver is approved, your information will be posted on the County of San Diego website, <http://Coronavirus-sd.com/K12Schools>

Proposed Reopening Date

08/25/20

Labor Organization

We do not have a labor organization as a private school. We have had multiple virtual faculty meetings (7/9, 7/24, 8/3) to discuss the plan. After the faculty and staff reviewed the plan, We conducted a survey where 86% was a 7 or higher on a scale of 1-10 on the comfort level of returning to in-person learning.

Parent Organization

Throughout the summer we have had ongoing parent communication letters and a Zoom Meeting (7/29). We shared our Return to School Plan with our parents and surveyed them on the comfort level of returning to campus for in-person learning, over 85% of our families rated a 7 or higher on a scale of 1-10 on the comfort level of returning to in-person learning. We have conducted a second survey on Aug. 10-16 results show that 76% of students want to return to on campus instruction.

Community Organization

I shared our plan of reopening at the Escondido School Leaders (leaders from all Escondido public, charter, and private schools) along with city officials from Fire and Police on 7/21. I also emailed Fire Chief Vogt our Return to School Plan. The plan was met with favorable approval for returning to in-person schooling based on the size of our school population. We also have the full support of our church board from their meeting on August. 10, 2020.

2. Distance Learning

YES

2.A) Distance Learning Section/Page

Section 2 Page 24

2.B) Distance Learning Language

DISTANCE LEARNING OPTION

For any number of reasons, Distance Learning on a short-term or long-term basis may be an attractive option for some of our families. While our emphasis will be on providing the best educational experience possible for our five-day students, we are integrating a Distance Learning option into our program. Please note that this is not the same as remote learning administered by a teacher, but will require the parent or guardian to assume the primary responsibility for teaching course materials to students. Grace Christian School will provide the learning materials necessary for success. Teachers will grade assignments and correspond with parents and students about student work, but will not be providing the video instruction and extensive video conferencing that would be available in times of remote learning.

3. Physical Distancing

YES

3. A) Physical Distance Section/Page

Section 1 Page 8,10-11

3. B) Physical Distancing Language

Staff must wear face covering around students and staff.
Staff will maintain 6 feet physical distance from students and other staff when practical.
Staff will stay with the assigned student cohort throughout the day.

IMPLEMENTING SOCIAL DISTANCING - INSIDE AND OUTSIDE THE CLASSROOM

TRANSITION BETWEEN SPACES

Every effort will be made to minimize contact at school between students, staff, and families throughout the school day. Directional signs will be placed across campus.

Students need to maintain 6-foot distance at all times: entering campus, transitioning during school hours, and exiting campus. Transition areas are outdoors with space for social distancing (via instruction from staff with cohort transitions) with the following

notations:

Stairs for two-story building: Students will enter the second floor using the East stairwell and exit the second floor using the West stairwell. Floor markings and signs will provide reminders of flow to students.

Indoor hallway of second-story building: Floor markings will provide directions for student movement within the hallway to allow social distancing.

CLASSROOM SPACE

Teacher/Staff will ensure 6 feet social distancing is maintained when practical.

Students will remain in stable groups (cohorts). Teacher rotation will be utilized to the greatest extent practicable to reduce the amount of student transitions between rooms.

Distance between all student seats, including teachers' seats, will be at least 6 feet apart. Markings are placed on classroom floors to promote distancing.

Teachers will be redesigning activities for smaller groups and rearranging furniture and play spaces to maintain separation.

Teachers will develop instructions for maximizing spacing and ways to minimize movement in both indoor and outdoor spaces that are easy for students to understand and are developmentally appropriate.

RESTROOMS

Restrooms will have maximum occupancy posted. If maximum occupancy is met, students/staff must wait outside of the restroom until an occupant has exited.

Grades will have the following restroom designation:

K-2: restroom in the two-story building

3-5: restroom next to the multipurpose room

6-8: restroom next to PreSchool

One boy and one girl will be allowed per grade level during in-classroom instruction time to use their designated restroom.

A staff member will monitor restroom use during times when used by a grade/cohort.

Every other stall will be closed; every other sink will be turned off to allow 6-foot separation between students.

Staff have a single occupant restroom available for their use.

Signs will be posted in every restroom stating: All persons must wash their hands after using the restroom.

NON-CLASSROOM SPACES

Recess rotation will be scheduled, with only one class in an outdoor area at a time. All equipment will be disinfected between uses.

Weather permitting, non-classroom space (especially outdoors) can be used for instruction. Grace will be constructing an outdoor classroom.

To minimize gathering in hallways and around buildings, the movement will be one-way. Students will follow directional arrows. Lunch will be served in classrooms or outdoors instead of the gym. ChoiceLunch will have individually plated meals that families can preorder. Students will not be allowed to share food and utensils. For office spaces where 6 feet distance cannot be maintained, plexiglass dividers have been installed.

4. Stable Cohorts

YES

4. A) Stable Section/Page

Section 2 Page 18-19

4. B) Stable Cohorts Language

MODEL SUMMARY:

Classes able to fit in a room in accordance with distancing guidelines will have one teacher, as is our standard practice.

In order to ensure social distancing of 6 feet between students and staff, some of our classrooms will have to be split into two cohorts. Administration and teachers will assign students permanently to cohorts prior to the start of on-campus instruction.

NOTE: Kindergarten cohorts will be temporarily assigned prior to the start of on-campus instruction. After a defined period of time for student assessment, permanent cohort placement will be assigned. The transition of the kindergarten students into their permanent cohort will not be executed until a Monday or start of a school week.

Grades with cohorts will be under the responsibility and care of their teacher, and both will receive additional support from the teacher's aide. The teacher will be responsible for instruction, communication, and management of learning outcomes, whereas the aide will be primarily responsible for providing help and support to students as they work on their assignments. This model allows for the students to have as much direct interaction with their teacher as possible as well as abundant support and guidance during their work time from an aide, all while complying with health orders.

When a class is split into cohort groups for each subject, the teacher will provide instruction to one cohort while the aide provides assistance and guidance to the other, after which the teacher and aide will trade places. This way each cohort will receive the same instruction from the teacher and the same support from the aide. The teacher and aide will work closely together to ensure that each student receives the help and support needed during this time.

5. Face Coverings

YES

5.A)Face Covering Section/Page

Section 1 Page 4

5.B) Face Covering Language

FACE COVERINGS

STUDENTS

It is strongly recommended that students in kindergarten, 1st, and 2nd grades wear a face covering. When a teacher is helping a student 1:1, student and teacher will be required to wear a face

mask. All students will need to have a face mask at school. Students in grades 3-8 are required to wear a face covering throughout the day.

A cloth face covering or face shield should be removed for meals, snacks, or outdoor recreation, or when it needs to be replaced. When a cloth face covering is temporarily removed, it should be placed in a clean paper bag (marked with the student's name and date) until it needs to be put on again. Some teachers may elect to have their students attach their mask to a break-away lanyard, which can easily be removed when pulled on.

Teachers in grades K - 6 will teach students how to properly wear a mask using a variety of methods including but not limited to videos, books, slide shows, or direct instruction.

In order to comply with this guidance, students not exempt from wearing a face covering under CDPH guidelines but who are refusing to wear a face covering will not be allowed on campus. Grace will provide a face covering to students who inadvertently fail to bring a face covering to school to prevent unnecessary exclusions.

STAFF

All staff must use face coverings in accordance with CDPH guidelines unless Cal/OSHA standards require respiratory protection.

In limited situations where face coverings cannot be used for pedagogical or developmental reasons, (i.e. communicating or assisting young children or those with special needs) a face shield can be used instead of a cloth face covering while in the classroom as long as the wearer maintains physical distance from others, to the extent practicable. Staff must return to wearing a face covering outside of the classroom.

Workers or other persons handling or serving food must use gloves in addition to face coverings.

6. Cleaning and Disinfection

YES

6. A) Cleaning and Disinfecting Section/Page

Section 1 Page 6

6. B) Cleaning and Disinfecting Language

INTENSIFYING CLEANING, DISINFECTING, AND VENTILATING

Staff will clean and disinfect frequently-touched surfaces daily and, as practicable, frequently throughout the day. Janitorial staff will be trained in the proper use of EPA list N disinfectants and will clean all frequently touched surfaces after school each day. Teachers will clean frequently-touched classroom surfaces throughout the day using soap and water.

Restrooms will be cleaned on a regular basis. A cleaning log will be kept at the entrance to each restroom indicating date, time, and staff who cleaned the area.

PPE is provided for staff.

Frequently touched surfaces in the school include, but are not limited to:

Door handles
Light switches

Sink handles
Bathroom surfaces
Tables
Student Desks
Chairs

Shared playground equipment will be limited in favor of physical activities that require less contact with surfaces.

Staff will limit the sharing of objects and equipment, such as toys, games, and art supplies to the extent practicable. But where allowed, items will be cleaned and disinfected between uses.

Staff will ensure proper ventilation during cleaning and disinfecting. Fresh outdoor air will be introduced as much as possible, for example, by opening windows and doors where practicable.

Following cleaning, the staff will air out the space before children arrive. They will then plan to do a thorough cleaning when children are not present. If using air conditioning, staff will use the setting that brings in fresh air. They will replace and check air filters and filtration systems to ensure optimal air quality (based on manufacturer recommendations).

Drinking fountains have been disabled to reduce points of contact. Students will need to bring personal water bottles. Our no-touch bottle fill stations can be used.

7. Entrance, Egress and Movement

YES

7. A) Entrance/Movement Section/Page

Section 1 Page 7-8

7. B)Entrance/Movement Language

ENTERING/EXITING CAMPUS

For standard pick-up/drop-off, parent vehicles will enter campus via gate on W.15th Ave. and exit via gate on Redwood Dr. (see map)

For standard pick-up/drop off, parents must stay within three feet of their vehicle (any other non-student persons must remain in the vehicle during pick-up and drop-off).

Signs will be posted for

Health Screening Area

6ft social distancing reminders

Standard Student Drop-Off Procedure:

Refer to Section 4: Extended Care for students arriving to campus before 8:00 AM.

Staff will conduct visual health screening at the designated Health Screening area (see map) before students exit the vehicle (refer to Health Screening section) .

Four cars per lane will be allowed between the Health Screening area and crosswalk (see map) for students to exit their vehicles and report directly to their classrooms.

A staff member will be at the crosswalk to monitor, assist younger students, and verbally remind students to social distance and wear masks.

Students will use hand sanitizer prior to entering the classroom.

Standard Student Pick-Up (after school) Procedure:

Refer to Section 4: Extended Care for students reporting to Extended Care after school

Each grade will have teacher/staff escort student cohort to designated pick-up areas (see map) and ensure social distancing
Designated pick-up areas:

Student cohorts for grades 6-8: edge of athletic field

Student cohorts for grades 3-5: under solar panels in parking lot

Student cohorts KA, 1A, and 2A will remain in classroom

(teacher/staff at classroom door to coordinate pick-up)

Student cohorts KB, 1B, and 2B will line up on sidewalk against two-story building (side facing the parking lot)

Early Student Pick-Up/Late Student Drop-Off

No more than two families will be allowed in the school office at the same time to maintain social distancing protocols.

Floor markings outside of the school office will allow waiting families to maintain social distancing.

Students who are late/tardy must report to the school office with a parent/guardian for visual health screening before proceeding to the classroom.

Parents must notify the school office prior to picking up their child early.

Students will report to the school office at appointed pick-up time to be signed out by a parent/guardian.

Staff

maintain 6 feet physical distance from students and other staff when practical.

Staff will stay with the assigned student cohort throughout the day.

Visitors

Grace Christian School will not allow normal visitation to our campuses until reopen date. Only Grace Christian School staff are allowed on campus during preparation for reopening.

Once Grace Christian School reopens, visitor restrictions may still apply to limit the contact with our students and staff.

Parents/Guardians

Parents or responsible adults are required to remain with their child until health screening is complete; then they will exit campus.

Any negative health screen will require the parent or responsible adult to take the child home.

Any non-student, non-employee who must enter campus for essential business/meeting/student pick-up will be subject to health screening and standard check-in procedures through the front office.

Parents/guardians picking up sick children will call the office upon arrival, and students will be escorted to the parking lot.

8. Health Screenings

YES

8. A) Health Screening Section/Page

Section 1 Page 9, 13-14

8. B) Health Screening Language

HEALTH SCREENING

ALL persons who are sick or who have recently had close contact with a positive COVID-19 case should not come on campus. Support and accommodations will be provided for students in these cases. Students will be screened before entering the school buildings.

Screenings will take place at the designated Health Screening area (see map) or at the school office (for late/tardy student drop-off).

Students must maintain social distancing before and after screening.

Once students are screened, they should go directly to their classroom.

Teachers will visually check their students, especially lower grades and students who may have difficulty communicating an illness, throughout the day to monitor if they are showing visual signs of symptoms.

All persons will be health screened before entering the facility. Any person who cannot pass the health screening will be asked to leave immediately. Any person who develops these symptoms while on campus will also be asked to leave (Refer to Protocol for When a Student, Staff or Visitor Become Sick Section).

We will ask if the following symptoms have occurred within the last 24 hours: fever, cough, shortness of breath or difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, diarrhea, new loss of taste or smell.

We will ask if there has been any contact with a positive COVID-19 case.

Visitors: We appreciate all the benefits we receive from our visitors and volunteers. However, in order to promote the health and safety of our staff and students, all non-essential visitors will not be permitted on our campus at this time.

Any person with a history of COVID-19 symptoms that are not caused by COVID-19, such as a runny nose from seasonal allergies, should let the school office know the nature of these symptoms in writing. A doctor's note may be required.

Until further notice, ALL family security cards for gates are disabled. Students must enter through the office, gym, or car line for health screenings.

Campus facilities will not be used or rented out for anything other than in-person instruction and extended care.

8. C) Language for Symptomatic Students or Staff

PROTOCOLS FOR WHEN A STUDENT, STAFF, OR VISITOR BECOMES SICK

Any students or staff exhibiting symptoms should immediately be required to wear a face covering and be required to wait in an isolation area until they can be transported home or to a healthcare facility, as soon as practicable. COVID-19 symptoms:

Fever

Cough

Shortness of breath or difficulty breathing

Chills

Repeated shaking with chills

Muscle pain

Headache

Sore throat

Diarrhea

New loss of taste or smell

Students

Any student exhibiting COVID-19 symptoms will be required to wear a face covering and wait in the isolation area located in Room 104 until they can be transported home or to a healthcare facility, as soon as possible.

A staff member will monitor the isolation area while a student is waiting for pick-up.

Parents/guardians will pick up their student via the gate at the church parking lot. Parents/guardians will park in the church parking lot and call the school office to notify staff that they have arrived.

The student will then be escorted by staff to the gate for the parent to pick up/sign out their child.

Staff

Staff exhibiting COVID-19 symptoms who are supervising students will immediately contact the school office for coverage. Once a staff member has replaced them, they will immediately leave campus.

Staff exhibiting COVID-19 symptoms who are not supervising students will immediately leave campus and then contact the school office or their direct supervisor.

Students/staff who self-report COVID-19 symptoms, have been exposed to person(s) who have tested positive for COVID-19, or leave campus due to exhibiting COVID-19 symptoms need to be rapidly tested for COVID-19. Tests can be acquired through a health care provider or community testing site. Test results must be reported to the school office within 24 hours of receiving the results. If results are positive, refer to For positive cases of COVID-19 below. 9-1-1 will be contacted without delay for serious illness including the persistent pain or pressure in the chest, confusion, or bluish lips or face.

When any student, staff, or visitor has a health concern they should report their concern to the office manager who will document and consult with the superintendent.

In the event of teacher absence, a trained substitute will provide class instruction.

For non-COVID illness

Please refer to the Family Handbook for returning to school.

For positive cases of COVID-19

Grace personnel will notify local health officials, staff, and all families immediately of any positive cases of COVID-19 while maintaining confidentiality as required by state and federal laws.

Families and staff will receive notices via email.

All areas used by any sick person will be closed off and not used for 24 hours (if possible) before cleaning and disinfection can take place.

Any sick staff members and students may not return until:

They have met CDC criteria to discontinue home isolation, including 3 days with no fever, symptoms have improved, and 10 days since symptoms first appeared.

They have submitted a doctor's clearance note to return OR proof of negative COVID-19 test result.

All students will have access to instructional material when out of class.

Staff, students, and families will be notified through email when there is a positive case on campus. Personal information will be held confidential.

9. Healthy Hygiene Practices

YES

9. A) Healthy Hygiene Section/Page

Section 1 Page 5

9. B) Healthy Hygiene Language

PROMOTING HEALTHY HYGIENE PRACTICES

We will teach and reinforce washing hands, avoiding contact with one's eyes, nose, and mouth, and covering coughs and sneezes among students and staff. We will ensure adequate supplies to support these behaviors.

Teachers will develop routines enabling students to regularly wash their hands at staggered intervals.

Signs will be posted around campus.

Transition between spaces: one-way arrows in hallways, "wait here" markers, and 6 feet social distancing signage will be present to promote distancing while moving around campus.

Student seats will be placed 6 feet apart.

Lunch will be served in classrooms, which are already set up for distancing, or in distanced settings outdoors instead of the gym.

ChoiceLunch will have individually plated meals that families can preorder. Students will not be allowed to share food and utensils.

Each student will keep supplies in individual containers, and supplies will not be shared among students. Each student will store these belongings and supplies in their desk, cubby, or their storage area below their desk.

Regarding celebrations: students will be allowed to bring items to share with their classes, but they must be individually wrapped pre-packaged goods in their original containers. Teachers will be responsible for opening and distributing the items and will follow sanitization guidelines including single-use gloves for food handling. These same guidelines will apply for all celebrations, including birthday celebrations.

10. Identification and Tracing of Contacts

YES

10. A) Identification and Tracing Section/Page

Section 1 Page 13-14

10. B) Identification and Tracing Language

PROTOCOLS FOR WHEN A STUDENT, STAFF, OR VISITOR BECOMES SICK

Staff, students, and families will be notified through email when there is a positive case on campus. Personal information will be held confidential.

12. C) Staff Tested Periodically Language

All staff are required to be tested for COVID-19 and receive results prior to the start of on-site instruction. Results must be provided to the school office or their supervisor.

Staff COVID-19 on-going testing requirements: 25% of staff will be tested every 2 weeks, or 50% of the staff every month to rotate testing of all staff over time.

13. Triggers for Switching to Distance Learning

YES

13. A) Triggers to Dist. Learning Section/Page

Section 2 Page 23-24

13.B) Triggers to Dist. Learning Language

REMOTE LEARNING FOR PARTIAL OR ALL SCHOOL CLOSURES

We are hoping and planning to be able to stay in the classroom five days a week all year long. However, we do not want to be caught off guard in the event of a school closure. Grace will consult with the San Diego County Health and Human Service Agency (HHSA), and

the San Diego County Office of Education (SDCOE) to determine closure status due to teacher, staff, or student testing positive for COVID -19. Grace will also update information on its website and Facebook page to provide guidance and CDC recommendations for physical distancing during closures.

Learning from our previous experiences, we have established a remote learning option that will maintain a high level of instruction and learning through routine engagement between teachers and students.

Expectations are that students will actively participate in both “real time” face-to-face instruction and engage in pre-recorded lessons in order to achieve grade level growth and competencies. Students will be expected to complete assignments to the best of their ability. Teachers will guide and support students 1:1, in small groups, or in larger groups via virtual meetings.

Should this transition need to take place at any time, students will be well-equipped thanks to the daily classroom use of our digital platform, Google Classroom and the rest of the Google Suite for Education. In addition, each teacher will utilize a Swivl device to live stream and record instructional lessons. Assignment submission and correspondence will happen the same way as in the classroom, so it will be as smooth a transition as possible.

Grace will be closely monitoring state and local health orders, and we will abide by their decisions.
