3. Where Are We Now?
4. Where Do We Go From Here?
5. Serological Testing
6. Summary
7. Next Steps
8. Questions & Comments

## Private and Public Partnership

The **Lab Testing Task Force** provides a forum for hospitals and health systems, community health clinics, commercial reference laboratories, and other inpatient or outpatient facilities that perform laboratory testing, to engage in **mutual problem solving, education, and capacity development** that results in **improved health status for the community at large.**

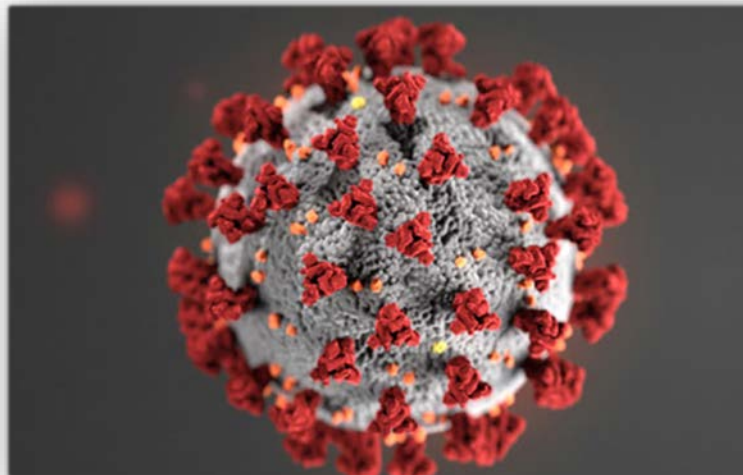

**To reduce morbidity and mortality of COVID-19 by conducting timely and accurate diagnostic testing.**

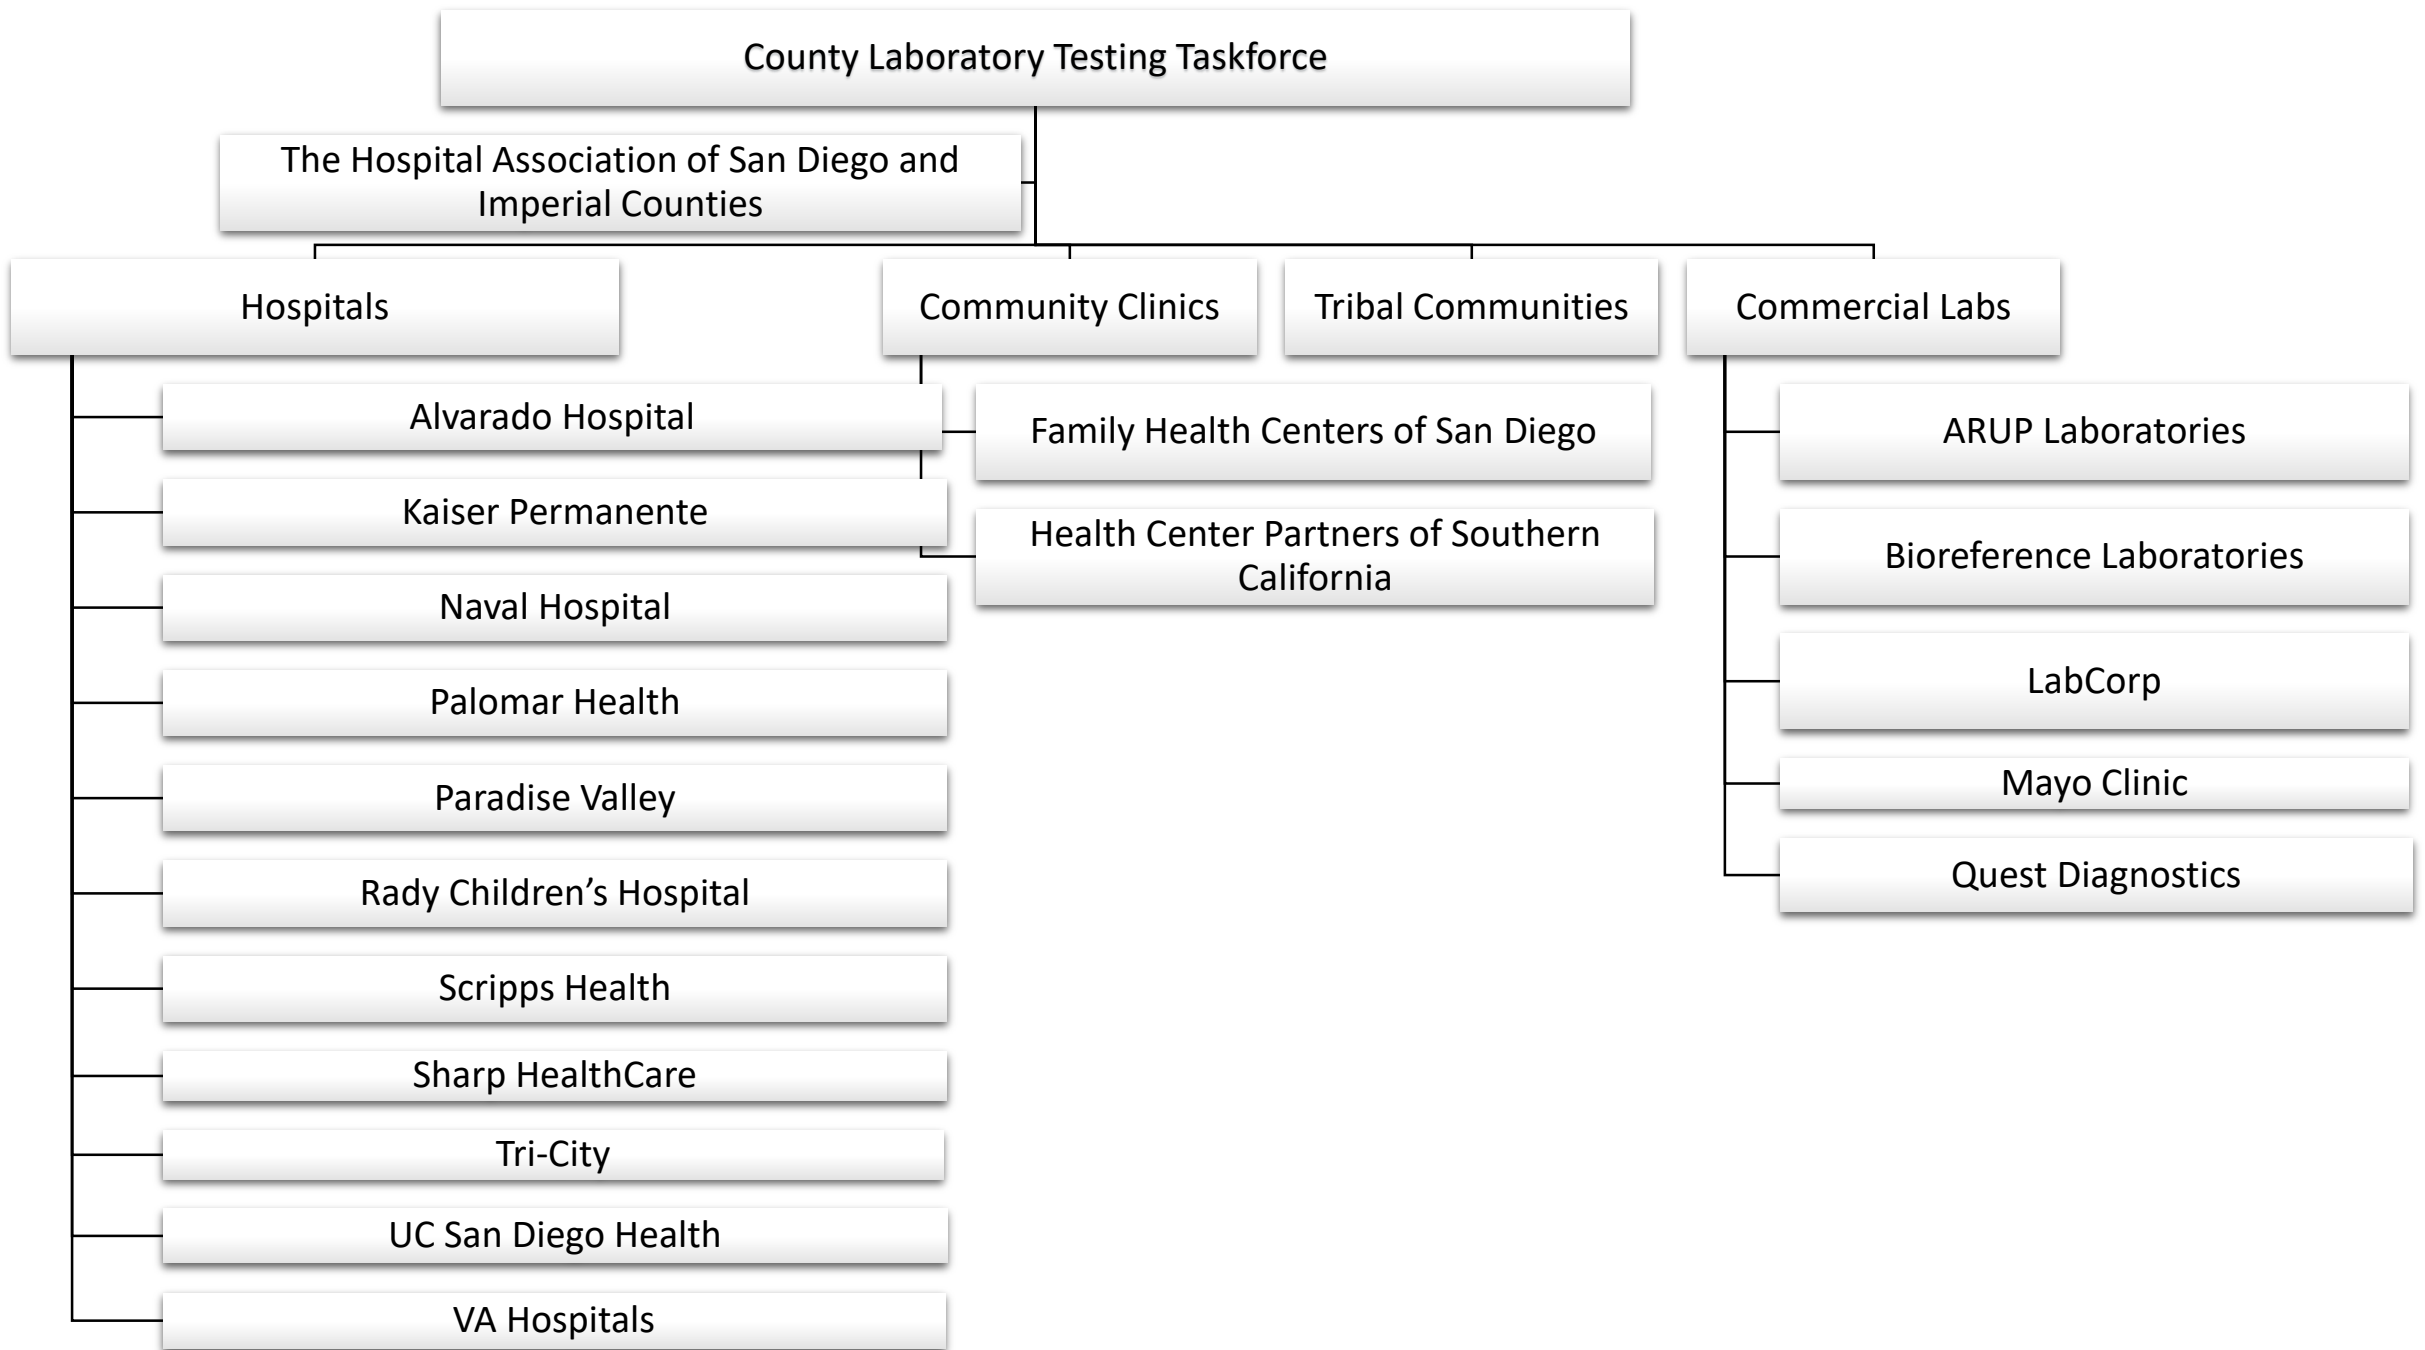

1. Provide an ongoing venue for **input and collaboration** with community laboratory testing partners.
2. **Increase and maximize capacity** for diagnostic testing.
3. **Utilize serology testing** to inform public and personal health decisions.
4. **Implement quality assurance measures** for testing the general public.

- Equitable distribution of testing resources in the community.
- Utilization of state-of-the-art laboratory equipment and supplies.
- Timely reporting of results to ensure appropriate public health and/or treatment response.
- Facilitation of open communication and collaboration among laboratories in San Diego County.

# COUNTY LABORATORY TESTING TASK FORCE

## AGENDA – 4/29/2020

LIVE WELL  
SAN DIEGO

## AGENDA
