

# Help us learn more about COVID-19!

Did you get an invitation in the mail from the California Department of Public Health (CDPH) asking you to join the CalScope COVID-19 antibody study?

## Your household could earn up to \$80!

CDPH has randomly selected households in your county to understand how many Californians have antibodies (from past infection or vaccination) to the virus that causes COVID-19.

### Who can join?

1 adult (18+ years) and 1 child (1-17 years) from invited households.

### What do I need to do if I sign up?

1. Take an anonymous survey with questions on COVID-19.
2. Take a free and anonymous COVID-19 antibody test using a finger-prick blood test sent to your home.

## Represent your community!

If you received an invitation, visit [www.CalScope.org](http://www.CalScope.org) and click "I got an invitation" or call 1-833-580-1333 to sign up today!

Your household must be selected to participate in the study. Questions? Call 1-833-580-1333 or email [CalScope@cdph.ca.gov](mailto:CalScope@cdph.ca.gov).
