

DECEMBER 29, 2020

The County of San Diego's COVID-19 Vaccine Clinical Advisory Group discussed and approved the following recommendations on 12/29/2020:

- In order to implement equity, establish an Equity Distribution Subcommittee.
- Approval of sub prioritization of BHS facilities in Phase 1a, Tier 1 with high percentage of Medi-Cal clients.
- Create a centralized registry to match providers with vaccine storage capacity (vaccination sites) with providers who do not have storage capacity (smaller practices) so that small practices can receive vaccination by partnering with a vaccination site (matchmaking).
