

# Sexually Transmitted Diseases in San Diego County, 2010 Data Slides

County of San Diego,  
Health and Human Services Agency,  
HIV, STD and Hepatitis Branch of  
Public Health Services

## **Preface**

This publication, *Sexually Transmitted Diseases in San Diego County, 2010 Data Slides*, includes current reported disease data collected through 2010 for chlamydia, gonorrhea and syphilis. All tables and figures published here supersede those in earlier publications of these data. This slide set provides a comprehensive picture of reported STD trends and current morbidity in San Diego. These data are compiled to guide policy and program development within the County of San Diego's HIV, STD and Hepatitis Branch, local STD programs, and other public health agencies.
