

Sexually Transmitted Diseases in San Diego County, 2012 Data Slides

County of San Diego,
Health and Human Services Agency,
HIV, STD and Hepatitis Branch of
Public Health Services

September 2013

www.STDSanDiego.org

Preface

This publication, *Sexually Transmitted Diseases in San Diego County, 2012 Data Slides*, includes reported disease data collected through 2012 for chlamydia, gonorrhea and syphilis. All tables and figures published here supersede those in prior publications.

This slide set provides a comprehensive picture of reported sexually transmitted disease trends and current morbidity in San Diego. These data are compiled to guide policy and program development within the County of San Diego's HIV, STD and Hepatitis Branch, local STD programs, and other public health agencies.
