County Medical Services (CMS) Program

DRUG FORMULARY

June 2015

This document has been prepared by AmeriChoice for the County of San Diego and is updated at least quarterly throughout the year. Please be sure to confer with the website at http://www.sdcounty.ca.gov/hhsa/programs/ssp/county_medical_services/index.html to ensure this is the most recent version.

San Diego County CMS Drug Formulary

The County of San Diego has contracted with AmeriChoice as their Administrative Services Organization (ASO) for the County Medical Services (CMS) Program. In turn, AmeriChoice has contracted with Catamran® to act as the Pharmacy Benefits Manager (PBM).

The CMS Pharmacy and Therapeutics (P&T) Committee determines the content of this formulary. Additions to this formulary are recommended by the P&T Committee and must be approved by the County. To request the review of a new product, complete the "Request for Formulary Change" form located at the end of this document and fax to the Medical Management Services Manager at AmeriChoice at (855) 394-7927.

FORMULARY FORMAT

Generic Products

1. The Formulary is generic based.
2. When a brand name drug is ordered and a generic equivalent is available, the generic will be dispensed by the pharmacy. The prescriber must justify any exception and the "Drug Prior Authorization" form must be completed and faxed to Catamran® at (866) 511-2202. The Drug Prior Authorization Form is also located at the end of the formulary.

Maximum Allowable Limits

Except as otherwise noted below, enrollees can receive a 30-day supply of prescribed medications.

Exceptions:

- Certain classes of medications used to treat chronic diseases, such as asthma controller medications, statins, blood thinners, ACE-I and ARBs, Insulins, and Beta blockers, may be filled for a 90 day supply if the prescription is written for a 90 day supply. **MEDICATIONS WITH A 90 DAY FILL ARE NOTED WITH AN ASTERICK IN THE FORMULARY.**
- Refills are allowed after 23 days.
- One vacation supply is allowed every 12 months, to a max of one 60 day supply per medication per 12 months.
- One "lost prescription" supply is allowed every 12 months, to a max of a 30 day supply for one lost prescription per medication per 12 months.
- Quantity limits of drugs are noted as applicable. Products containing aspirin have a quantity limit of 4 grams per day. Products containing acetaminophen have a quantity limit of 3 grams per day.

Code 1 Restrictions

Products with this notation are limited to prescriber's specialty, to a restricted amount, to specific diagnoses, or to step therapy.

Formulary Exclusions

- Medication prescribed for cosmetic purposes
- Medications prescribed for the treatment of mental health conditions
- All OTC products not included in this listing
- Oral birth control and birth control devices for non-pathological reasons
- Nicotine and smoking cessation products
- Experimental drugs, drugs used in an experimental manner, and all drugs without FDA approval
- Medications for the treatment of drug and alcohol abuse
- Medications for the treatment of erectile dysfunction
- Medications related to transgender care
- Drug and alcohol abuse treatment
- Compounded medications

Authorization Policy

Every provider has the right to request coverage of a non-formulary medication. However, medical justification for using a non-formulary medication is required. First, please review any notations found under the "Utilization Management" column in the drug category type of the non-formulary medication. Second, complete the "Drug Prior Authorization" form found at the end of this document and fax to Catamran® at (866) 511-2202. Additionally, you may contact Catamran® Customer Service by phone (800-626-0072) which is available 24 hours a day, every day, to assist with any formulary questions

Denials and Appeals

When a product is excluded or is not medically justified, Catamaran® will issue a provisional denial to the pharmacy and/or the prescriber. As the CMS Medical Director completes the denial, the prescriber and the enrollee are issued written notification. Appeals may be made directly to CMS, and instructions for submitting an appeal are incorporated in the denial notice.

Formulary Updates

This formulary is published on the Web and is updated on a quarterly basis. The most recent document is located at: www2.sdcounty.ca.gov/hhsa/documents/Formulary.pdf
