## Overview

The Ryan White Outpatient Ambulatory Health Services (RWOAHS) administered by the County of San Diego HIV, STD and Hepatitis Branch (HSHB) Public Health Services with funding from the State of California and the Federal Ryan White Treatment Extension Act of 2009 (RWTEA). The RWOAHS provides preventive and outpatient ambulatory health services to HIV positive patients through a network of qualified community clinics. The program is managed by the Administrative Service Organization (ASO), UnitedHealthcare.

Direct medical services are provided at outpatient ambulatory health services clinics that contract with HSHB and meet the quality standards required by the HIV Health Services Planning Group. The Medical Standards and Evaluation Committee recommends Standards of Care [Practice Guidelines](#) for patients enrolled in the RWOAHS for San Diego County. All medical conditions must be related to HIV disease and must be included in the RWOAHS scope of services. A listing of all RWOAHS participating medical and Oral Health clinics can be found on [5](#) of this section.

Please direct any program questions to either contact listed below:

**County of San Diego**  
**HSHB Contract Administrator**  
**(619) 293-4714 OR (619) 840-8170**

**UnitedHealthcare, ASO**  
**RWOAHS Program Manager**  
**(619) 403-8705**

## Eligible Patients

In order for a patient to receive services through the RWOAHS, the patient must:

- Have a positive HIV serology
- Not have or be eligible for other health coverage for treatment of HIV disease
- Have a Modified Adjusted Gross Income (MAGI) that does not exceed 500% of the Federal Poverty Level based on the household size and income. (Please Note: Federal thresholds are subject to change. For the most updated information, visit <https://www.coverdca.com/pdfs/fpl-chart.pdf>).
- Not be younger than 18 years of age, or older than 64 years of age
- Eligibility certification is granted to match their birth month with the need to re-certify their eligibility for RWPC six-months after their birth month

Individuals whose disease state meets or exceeds Social Security Disability criteria for AIDS must be referred for Medi-Cal and/or Medicare. Through the RWPCP application process, individuals are screened for other health care payers including Medi-Cal.

---

**To receive notice when this Handbook is updated, each Provider is required to provide the HSHB Contract Administrator a "Program Contact", including name, position or title, phone number, and email address. This individual should be involved in the day-to-day operations of the RWPCP and in a position to communicate information regarding the updates to interested parties at their clinic.**

## HIV Specialty Practitioners

HIV outpatient ambulatory health services are provided to enrolled RWOAHS patients, and provided by practitioners who must be based at RWOAHS contracted clinics. Working practitioners are encouraged to obtain an understanding of the HIV related field and are also encouraged to complete an AETC and AAHIVM annual exam.

### Medical Provider Registration & Credentialing

Prior to billing for services, all primary care/medical and Oral Health specialty practitioners must register with the HSHB Contract Administrator by completing the Provider Registration Form. The form should be submitted along with credentialing verification, a facsimile of the State of California medical license, and DEA certificate, if applicable. Services provided by practitioners prior to registering with the ASO will NOT be reimbursed.

Providers must maintain compliance with requirements of Title 22 of the California Administrative Code and the Health and Safety Code of the State of California as a licensed clinic during the time they provide and invoice for services through the RWOAHS.

### Exclusion, Debarment and Medi-Cal Verification

Effective December 1, 2018, all clinics are required to submit a copy of their monthly verification that no employee or entity providing services under their Outpatient Ambulatory Health Services Agreement is currently listed as debarred, excluded, suspended, or ineligible on the Federal System for Award Management (SAM: <http://SAM.gov>), the Federal Health and Human Services Office of Inspector General List of Excluded Individuals/Entities (LEIE: <http://exclusions.oig.hhs.gov>), or the State of California Medi-Cal Suspended and Ineligible list ([www.medi-cal.ca.gov](http://www.medi-cal.ca.gov)). The verification should be submitted prior to submitting claims each month as EDM checks are required prior to payment of claims. Verification may be submitted via fax to (855) 394-7927 or via email to [COSD\\_claims@uhc.com](mailto:COSD_claims@uhc.com) and should be sent to the attention of Ryan White E-D-M Verification.

### Services Covered

- Outpatient Ambulatory Health services
- Palliative oral health care
- Nutritional counseling
- Treatment Adherence (TA) counseling
- Pharmaceuticals on the approved list
- Secondary Oral Health patients are eligible for palliative oral health services

### Services Not Covered

- Physician or oral health services provided outside the outpatient ambulatory health services clinic (available with other funding)
- Vaccines
- Inpatient hospital services
- Outpatient hospital services

#### Key Information:

- Practitioners shall use the [HIV Flow Sheet](#) which contains all required elements developed by the Medical Standards and Evaluation Committee.
- A [Sexual Health Risk Assessment Form](#) or another equivalent form shall need to be completed by the patient every 3 – 6 months and filed in the patient's medical record. Exceptions will be documented.
- An oral health referral shall be documented annually.

# 2022 RWPCP Provider Handbook

---

- Emergency department services
- CT scans
- MRI and P.E.T. scans
- Invasive diagnostic tests done outside the outpatient ambulatory health services
- 

## Other Resources Available for RWPCP Patients

HSHB has information for other local, State, and national programs which may be of benefit to RWPCP patients. Other sources fund programs such as the AIDS Drug Assistance Program (ADAP), compassionate use programs for medications not covered by RWPCP, medical specialty care and additional oral health treatment through Specialty Care arrangements. Services covered in Specialty Care are addressed on [Page 12](#) of this handbook.

## Medical Insurance and RWPCP

Some services may be available to individuals who have medical insurance. Typically, this is limited to oral health services and some prescription medication not available through ADAP. For more information contact the County or ASO.

## Clinic Contacts and Service Locations

### Clinic/Program Contact

Each Provider must identify an individual who will serve as the primary contact for RWPCP services and issues. Examples of contact types include notification when changes are made to this Handbook, addressee of Client Service Evaluations submitted to the County, coordinator of site visits with County and/or ASO. Providers should provide the name, title/position, and contact information of the Program Contact to the County Contract Administrator. If the designated individual is no longer able to continue to serve or if contact information has changed, the County Contract Administrator should be notified within 24 hours.

### Adding Additional Service Locations

RWPCP services must be provided at one of the clinics listed on the following page. Services provided at locations not registered with the ASO will NOT be reimbursed. Contracted Providers may add clinics by submitting a completed [Provider Registration Form](#) to the County Contract Administrator.

## Medical Standards and Evaluation Committee

The Medical Standards and Evaluation Committee is a committee of the San Diego HIV Planning Group Council. The Committee meets at least three times a year to ensure that HIV Outpatient Ambulatory Health Services and Oral Health services provided through local Ryan White funded clinics meets or exceeds established HIV clinical practice standards and Public Health Services guidelines, assuring availability and access to state-of-the-art medical care for all eligible people living with HIV, through the following activities:

- Monitor and discuss current topics and/or changes in the management of HIV disease, treatment, prevention and co-occurring disorders.
- Consider all available community resources for HIV Outpatient Ambulatory Health services to maximize Ryan White capacity.
- Promote access and facilitate continuity of care with multiple entry and referral points.

## 2022 RWPCP Provider Handbook

---

- Recommend appropriate updates to the standards of care under which the Ryan White HIV Primary Care clinics operate, including opportunistic infections, antiretroviral therapy, and prevention counseling/health education.

To help fulfill these duties, the committee routinely reviews, updates and publishes [Practice Guidelines](#) for patients enrolled in the Ryan White Outpatient Ambulatory Health services.

Each Ryan White funded Outpatient Ambulatory Health Services provider must be represented on the committee by clinical or program management staff.

## RWOAHS Eligibility and Enrollment

### Eligibility Criteria

RWOAHS applicants are screened for eligibility by completion of the RWOAHS Application. Individuals eligible for RWOAHS are:

- HIV positive
- Residents of San Diego County

# 2022 RWPCP Provider Handbook

---

- Between the ages of 18 and 64
- Not eligible for insurance or other publicly funded programs\* (i.e. Medi-Cal)
- Have a Modified Adjusted Gross Income (MAGI) that does not exceed 500% of the Federal Poverty Level based on household size and income.

\* Individuals eligible for medical care through [US Department of Veterans Affairs](#) are encouraged to access those benefits but are eligible for RWPCP.

Please note that RWOAHS eligibility is not based on assets.

## Enrollment Application Guidelines and Clinic Responsibilities

To ensure accurate collection of member information, to avoid member duplication and data entry, and to maintain an accurate enrollment database system, all patient enrollment forms must be completed accurately, using the practices listed below. An original signature must be retained in the patient's file.

- Applications must be completed by clinic staff, printed legibly, and signed by the patient.
- The name and phone number of clinic staff completing the form must be listed.
- Be precise and document which clinic site (no abbreviations) the application is processed.
- The Primary Care Clinic must provide the patient a [RWPCP Patient Information Sheet](#), which outlines the services covered by the Program.
- The Primary Care Clinic staff must provide each patient a copy of the clinic's Patient's Rights and Responsibilities, review the Rights and Responsibilities with the patient, and obtain the patient's signature on the Rights and Responsibilities. The presenting clinic staff member reviewing the Rights and Responsibilities with the client shall also sign and retain a copy of the Rights and Responsibilities or a receipt in the patient's file.
- All applicants must sign an [ARIES Consent Form](#) to be eligible to receive services.
- If a patient appears to be eligible for Medicare, Medi-Cal, or Covered California complete the [RW-2E Referral Form](#), giving the original to the patient, and attaching a copy to the RWOAHS RW-1E application. A copy of the signed Covered California acknowledgement form shall be retained in the patient's file.
- Patients referred to Medi-Cal will be enrolled in the RWPCP for 60 days. If a Medi-Cal application is not filed within that time frame, the patient's eligibility for the RWPCP will terminate.
- Eligibility will be terminated the last day of the month the ASO is notified of a Medi-Cal denial due to any RW-MF "failure to cooperate" or "failure to provide" reason.
- 
- 
- Patients with another form of health insurance are not eligible to receive RWOAHS funded outpatient ambulatory health services.
- When faxing the enrollment forms to the ASO, please be sure to use the correct fax number (855) 394-7927.

**When faxing Program Enrollment forms protect patient confidentiality by always using a fax cover sheet.**

When a patient calls to make an appointment and/or when they have their first visit, it is recommended that the eligibility status is verified by checking the RWPCP Eligibility List. If the status is one of the

# 2022 RWPCP Provider Handbook

---

following and the eligibility period has expired, services will not be reimbursed and application or requests for extensions will not be granted:

- RW-FP - financial documentation is pending
- RW-MR – Medi-Cal referred
- RW-MF - Medi-Cal denied, failure to provide

The grace period for RW-FP is 30 days. DO NOT submit a new RWPCP application for someone with one of the above codes. Services provided to the individual after the grace period ends will not be reimbursed by RWPCP until the applicant has complied with the requirements, and the RW eligibility status reflects the change.

## REJ Eligibility Code

Applications submitted to the ASO for patients with one of the above status codes will prompt the ASO to change the eligibility code to REJ which indicates that an application has been submitted but rejected because the applicant has not been compliant with the public benefit program referrals or provided documentation of income. The applicant will need to take the following action:

- RW-FP - provide financial documentation
- RW-MR – provide proof that the patient has applied for Medi-Cal
- RW-MF – provide proof that a new Medi-Cal application has been submitted

## Application Forms and Timelines

The RWPCP Application screens for eligibility for the RWPCP and the potential eligibility for Medi-Cal and Medicare. The RW-1E or RW-1S form is used to enroll someone in RWPCP.

Enrollment is conducted annually with re-certification conducted mid-year. Consult the RW Eligibility List to determine if the individuals are eligible or must submit an application to re-certify.

## Enrollment

If someone has never enrolled in RWPCP, they must enroll using the [RWPCP Application](#) (RW-1E or RW-1S).

## Recertification

The re-certification process occurs on a semiannual (every six months) basis (See [Re-Cert Application](#)).

Application and Re-certification forms should be processed according to procedures described under **Enrollment Application Guidelines and Clinic Responsibilities** ([Page 6](#) of this Handbook) which include retaining a copy for clinic records, and sending the original to the County's ASO, for processing.

**Please note: clinic staff members do not determine eligibility timeframes.** Eligibility will be determined by the ASO and reported twice per month on the RWPCP Eligibility Listing referenced on [Page 9](#) of this handbook.

## Financial Documentation

Screening for referral to other publicly funded programs requires documentation of income.

## 2022 RWPCP Provider Handbook

---

Income should be reported on the Application as monthly income. An average monthly income may be provided if the income fluctuates between months. Such an average must be supported by the documents provided to demonstrate the applicant's income. Income documentations include:

- The most current Federal or State tax return including the W-2 or 1099
- Pay stub indicating a year-to-date amount (If enrolling prior to the last day of February, a December paystub from the prior year showing a year-to-date amount must also be provided.)
- Disability Award Letter
- Bank statement indicating SSDI, SSA, or VA benefits deposited

A copy of income documentation should be retained with the RWPCP Application. Income documentation is not required to be submitted to the ASO.

If the individual does not have financial documentation when they apply for RWPCP, the income section should be left blank and "\$ PENDING" written on the top of the RWPC application. The patient will be granted **30 days** to provide the documentation. Once the income has been documented, write the income on the application, mark out the "\$ PENDING", write "COMPLETE" on the top of the application, and either fax the form again to (855) 394-7927 or email to the ASO at [COSD\\_claims@uhc.com](mailto:COSD_claims@uhc.com) (**secure email must be used**) as confirmation the patient has provided necessary documentation.

### Eligibility and Enrollment in RWPCP Secondary Oral Health (RW-OH)

- RW-DO provides oral health care to individuals who have medical coverage/insurance but do not have oral health coverage/insurance or their oral health plan does not cover a procedure available through RWPCP. Medi-Cal and private insurance enrolled individuals are eligible for RW-DO. RWPCP is the last payer, so if a procedure is available through the primary provider, RWPCP will not cover the procedure.

### To Enroll an Individual in RWPCP Secondary Oral Health (RW-DO)

- If the applicant is new to RW-DO, if the applicant's eligibility is ending within six weeks, or if the applicant's eligibility has expired, the applicant must complete the [Secondary Dental Enrollment Form](#). Please note: there is no re-certification form for Secondary Oral Health Eligibility for Secondary Oral Health cannot last more than six months.

## Referral to Medi-Cal

Individuals are screened for referral to Medi-Cal by completing the RWPCP Application. Individuals referred to Medi-Cal must comply with the referral or will be denied future care until it is shown that they have a pending application.

Medi-Cal is California's Medicaid program, a public health insurance program which provides health care services for low-income individuals including families with children, seniors, persons with disabilities, foster care, pregnant women, and low income people with specific diseases such as tuberculosis, breast cancer, or HIV/AIDS. Eligibility and services available through Medi-Cal are available at:

## How does an applicant apply for Medi-Cal?

1. Applying On-Line: Applicants can apply on-line at [www.mybenefitscalwin.org](http://www.mybenefitscalwin.org).
2. At Rosecrans Health Services Complex:  
[http://www.sdcountry.ca.gov/hhsa/facilities/north\\_central/health\\_services\\_complex\\_rosecrans.html](http://www.sdcountry.ca.gov/hhsa/facilities/north_central/health_services_complex_rosecrans.html)
3. Family Resource Center(s) (FRC):  
[http://www.sdcountry.ca.gov/hhsa/programs/ssp/food\\_stamps/family\\_resource\\_centers.html](http://www.sdcountry.ca.gov/hhsa/programs/ssp/food_stamps/family_resource_centers.html)
4. Calling **211**: With the applicants consent, **211** will collect the necessary information and forward the application to the County for processing.

## RWPCP Eligibility Listing

The ASO will ensure the enrollment application is complete and will enter the patient's information into the enrollment database. The ASO will contact the clinic representative if the enrollment form is incomplete. Claims for services cannot be processed until enrollment has been entered.

At the beginning of **each month and mid-month**, the ASO will distribute via secure email an updated Eligibility List to RWPCP clinics. The RW Eligibility List contains the names of each patient, the clinic enrollment site, their respective eligibility status, and start and end dates. The list will be sorted to show current eligibility periods and recent enrollment history. Clinics are required to verify eligibility for patients on the most recent list prior to billing for services. Remember the Eligibility List may have changes due to activity since last issued.

- If your billing department does not already have the RWPCP Eligibility List sent to them bi-monthly via secure email, contact the ASO at (858) 658-8713.

## Other Payer Verification

The ASO will compare RWPCP patients against lists of Medi-Cal and Private Insurance providers to determine if any patients have another payer. The activity is to comply with funding source requirements to ensure RW is the payer of last resort. If it is determined the enrollee has other insurance coverage, the eligibility status will be changed to *D2 RW Denied - Other Payer* on the ASO's RWPCP Eligibility List. Claims submitted for these individuals will be denied, and should be submitted to the other payer. If the enrollee has been identified as having another payer source in error, the provider must submit an appeal to the ASO. For a detailed description of the Appeals Process refer to the following section.

## Appeal Process

To appeal the other payer finding that a patient has Medi-Cal or another primary insurance, contact the ASO at (858) 658-8713.

If the ASO still finds the patient has another payer source, an appeal should be filed following the same procedure outlined in the Claims Appeal Process ([Page 18](#)). The appeal should include supporting documentation showing the patient does not have another payer source. This documentation can include, but is not limited to, a printout from the insurance company's website showing the patient is no longer eligible and a letter of termination.

## Patients without Social Security Numbers

When medical and pharmacy claims are processed, the Social Security Number (SSN) is used to identify the patient. Individuals without a social security number are assigned an identification number using the following method:

## 2022 RWPCP Provider Handbook

- 1st three digits = 999
- Remaining six digits = use the month, day and year (last 2 digits) of the patient's birth date
- Example - Patient has a birth date of July 2, 1956. The identification number would be 999-07-0256.
