Note: Rates are calculated using 2020 Population Estimates; County of San Diego, Health and Human Services Agency, Public Health Services Division, Community Health Statistics Unit. 8/2021.

Note: All data are provisional. Case counts are based on the earliest of date of diagnosis, date of specimen collection, and treatment date. Totals for past months might change because of delays in reporting from labs and providers.

Editorial Note: Updated California STI Screening and Treatment Guidelines

Updated guidelines for screening and treatment of sexually transmitted infections (STIs) are now available through the California Department of Public Health (CDPH) and the California Prevention Training Center. These include:

- California STI Screening Recommendations (PDF)
- California STI/HIV Screening Recommendations in Pregnancy (PDF)
- California STI Treatment Recommendations in Pregnancy (PDF)
- California STI Treatment Guidelines for Adults and Adolescents (PDF)

These updated recommendations and other clinical tools and resources are also available at the STD Control Branch — Clinical Guidelines and Job Aids webpage. These recommendations align with the 2021 Centers for Disease Control and Prevention (CDC) STI Treatment Guidelines and recommendations from the United States Preventive Services Task Force, Infectious Diseases Society of America, and the CDPH STD Control Branch.

Laminated hard copies of these resources are available by contacting us at STD@sdcounty.ca.gov.

As 2022 comes to a close, the HIV, STD, and Hepatitis Branch of Public Health Services, in the County of San Diego Health and Human Services Agency, would like to thank you for being a valued partner in STI prevention and for striving to maintain and improve the sexual health of San Diegans. Happy holidays to you and your loved ones, and best wishes for 2023!
