

## Preteen Vaccine Week 2023 E-mail Template

Hello [insert audience],

**Preteen Vaccine Week (#PVW) is February 26- March 4 2023.** PVW is observed every year in California to promote immunizations that help protect preteens against very serious diseases such as HPV (Human papillomavirus), meningitis, flu, pertussis (whooping cough) and COVID-19.

Keeping children up to date with the recommended vaccines is part of [Live Well San Diego's](#) vision for a region that is Building Better Health, Living Safely, and Thriving.

To learn more, visit the County of San Diego's PVW webpage at <https://tinyurl.com/PreteenVaccineWeek>

The following materials are attached and linked on our [Preteen Vaccine Week webpage](#) to help promote PVW

- Drop In Article – Share this short document to help learn more about PVW and why it is promoted.
- Social Media Messages – Share these immunization awareness messages with the community through different social media platforms.
- HPV Summit- Register for the Monday, February 27th HPV Summit from 10am-11:30am PST: [Make San Diego HPV Cancer Free.](#)

Thank you for helping the County of San Diego promote the health and well-being of our community!
