Notes:

- This is a measure of prenatal care initiation and does not account for the frequency of care.
- Births with unknown time of prenatal care start were excluded from analyses.
- Starting in year 2000, birth certificates allowed reporting of up to three races. Race groups tabulated with a "Two or More Races" category are not comparable to those tabulated without it.
- \*Numbers are censored and rates are not calculated when the number of events is fewer than 5 (indicated by "<5"). Interpret with caution rates calculated for fewer than 20 events since they are considered statistically unreliable.
