

The TB Skin Test Result and Your Immune System

Thank you for returning to have your skin test read. To obtain an accurate result, **it is very important that you let the person reading the skin test know if you have a health problem that may weaken your immune system, such as HIV, cancer, diabetes, arthritis, or have had an organ transplant.** This information may affect the way your skin test is read.

*All information about you and your health status will be kept confidential as required by law.
It will not be released to anyone without your written permission.*
