Procedure of HPG Public Requests During HPG Meetings

During public comment periods of HPG meetings, public members sometimes request a variety of things directly or indirectly in their comments (e.g., information/clarification, data, investigation of a circumstance, etc. or may assert circumstances that require clarification to address either in 1:1 communication or in a subsequent meetings).

The process/procedure for responding is as follows.

During each HPG meeting (including the one in which the direct or indirect request is made), the chair or vice-chair will:

Explain the process for a response and indicate that:

- 1. HPG Support Staff has placed their email and phone number in the chat so that the speaker can contact the staff to discuss and clarify the request. The staff will obtain contact information for any needed follow-up (name, email address, phone number, and preference for communication).
- 2. When the speaker contacts HPG Support, staff will respond within one business day via email or phone call to obtain contact information and the basic details of the request.
- 3. The day following the HPG meeting, an internal debrief meeting will be held which includes the review of follow-up items. Follow-up items are discussed and assigned to appropriate personnel to respond further to obtain the required information/clarification. The requestor will be contacted the same business day as the meeting is held. *Items that involve or require provider contract information are assigned to Recipient staff.*
- 4. If the situation requires further research or data gathering, Support Staff will inform the requestor and provide a good faith estimate of the time required for the research and when the requestor may expect a fuller response from the staff.
- 5. Every attempt will be made to obtain and communicate the requested information within a 10-day period.
- 6. When a full response is provided, the follow-up item will be recorded as completed.

Waiver of the Ryan White HIV/AIDS Program Core Medical Services Expenditure Requirement

Policy Notice 21-01(Revised 10/01/24) Replaces Policy Number 13-07

Scope of Coverage

Health Resources and Services Administration (HRSA) HIV/AIDS Bureau (HAB) Ryan White HIV/AIDS Program (RWHAP) Parts A, B, and C.

Purpose of Policy Notice

This HRSA HAB Policy Notice (PN) provides the processes and requirements for HRSA RWHAP Parts A, B, and C recipients to request waivers of the statutory requirement regarding expenditure amounts for core medical services.

The revised PN describes a new requirement included on the RWHAP Core Medical Services Waiver Attestation Form. It also includes various editorial changes to respond to stakeholder feedback regarding clarity. The revised policy is effective beginning on October 1, 2024.

Background

Recipients must spend at least 75 percent of grant funds on core medical services. See Title XXVI of the Public Health Service Act (the RWHAP legislation, Part A section 2604(c), Part B section 2612(b), and Part C section 2651(c)). Grant funds include Minority AIDS Initiative (MAI) funding but exclude the amounts allowable by statute for administrative and clinical quality management (CQM) costs. The Secretary can waive this requirement for a recipient if: 1) there are no waiting lists for the AIDS Drug Assistance Program (ADAP), and 2) core medical services are available and accessible to all HRSA RWHAP eligible individuals in the recipient's service area. Approved RWHAP Part A, Part B, and Part C core medical services waivers are effective for one budget period of a grant award, which is one year.

Requirements

A HRSA RWHAP Part A, B, or C recipient must meet the following requirements:

- 1. Core medical services must be available and accessible within 30 days to all HRSA RWHAP eligible individuals identified in the recipient's service area. Core medical services must be available and accessible, regardless of the payment source. The recipient may use existing, non-RWHAP resources in the service area to ensure availability and access to core medical services.
- 2. There must be no ADAP waiting lists in the recipient's service area.
- 3. There must be a public process to obtain input on the waiver request. This public process must seek input from impacted communities on the availability of core medical services and the decision to request the waiver. Impacted communities include clients and RWHAP-funded core medical services providers. You may use the same method to seek input on community needs as part of the annual priority setting and resource allocation, comprehensive planning, statewide coordinated statement of need, public planning, and/or needs assessment processes.

Example of Applying the Requirement

If a RWHAP eligible individual needs outpatient ambulatory health services, which is a core medical service, an appointment to see a provider must be available within 30 days within the recipient's service area, regardless of how that service is funded. If all core medical services are not similarly accessible and available, or if there is an ADAP waiting list, you do not qualify for a waiver.

Requesting a Waiver

To request a waiver, the Chief Elected Official, Chief Executive Officer, or a designee of either must complete and submit the HRSA RWHAP Core Medical Services Waiver Request Attestation Form (attached below on page 4) to HRSA HAB as specified by the deadlines and methods described below.

The form must specify the percentages of HIV service dollars, including MAI funds, the recipient proposes to allocate to core medical and support services, if the waiver is approved. Signature indicates attestations for eligibility and the requirement of documentation upon request.

No other documentation is required to be submitted with the HRSA RWHAP Core Medical Services Waiver Request Attestation Form.

Submitting Waiver Requests

HRSA RWHAP Part A and RWHAP Part C waiver requests must be submitted as an attachment with the grant application or the mandatory non-competing continuation (NCC) progress report. Waiver requests do not count towards grant application or NCC progress report page limits.

HRSA RWHAP Part B recipients may submit a waiver request prior to the submission of a grant application, with the grant application or NCC progress report as an attachment or up to four months after the start of the budget period for which the waiver is requested.

HRSA RWHAP Part B recipients may request a waiver for the HIV Care Formula award, or the Ryan White Part B Supplemental award, or both. Recipients must request each waiver separately.

Methods for Submitting Waiver Requests

Waiver requests submitted with grant applications must be submitted through www.grants.gov. Waiver requests submitted with the mandatory NCC progress report must be submitted through the Electronic Handbooks (EHBs).

Part B recipients planning to request a waiver before or after the submission of a grant application or NCC progress report must notify their HRSA HAB project officer (PO) who will send a Request for Information (RFI) through the EHBs.

Waiver Review and Notification Process

HRSA HAB will review waiver requests and notify recipients of its approval or denial within four weeks of receipt of the request.

Approved core medical services waivers are only effective for one budget period. Approved waivers are not required to be implemented, should circumstances change. Recipients must submit a new request(s) each budget period.

Public Burden Statement: HRSA uses the documentation submitted in core medical services waiver requests to determine if the applicant/grant recipient meets the statutory requirements for waiver eligibility including: (1) No waiting lists for AIDS Drug Assistance Program (ADAP) services; and (2) evidence of core medical services availability within the grant recipient's jurisdiction, state, or service area to all people with HIV identified and eligible under Title XXVI of the PHS Act. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is 0906-0065 and it is valid until 08/31/2027. This information collection is required to obtain or retain a benefit (Ryan White HIV/AIDS Treatment Extension Act of 2009, Pat A section 2604(c), Part B section 2612(b), and Part C section 2651(c)). Data will be kept private to the extent required by law. Public reporting burden for this collection of information is estimated to average 0.49 hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Information. RECOMMENDATIONS FOR RE-ALLOCATION FOR FY 25-26 (03-01-2025 TO 02-28-2026)

DATE: March 26, 2025

ITEM: Consider the Priority Setting and Resource Allocation Committee (PSRAC) 1st recommendation for re-allocating Part A funds in fiscal year 2025-2026.

BACKGROUND:

The HIV, STD, and Hepatitis Branch (HSHB) continues to see high utilization of Outpatient Ambulatory Health Services (OAHS): Primary Care. PSRAC is recommending an increase to avoid potential interruption of the availability of this key service.

The reduction of nine percent (9%) to all remaining services is recommended. The savings can be deployed to meet the high utilization of OAHS: Primary Care.

RECOMMENDATIONS:

- 1. **Action Item**: Decrease the following service categories by nine percent (9%):
 - OAHS: Medical Specialty by \$17,550 from \$195,000 to \$177,450.
 - Oral Health by \$14,485 from \$160,940 to \$146,455.
 - Medical Case Management by \$103,667 from \$1,151,853 to \$1,048,186.
 - Non-Medical Case Management by \$35,282 from \$392,021 to \$356,739.
 - Non-Medical Case Management for Housing by \$18,000 from \$200,000 to \$182,000.
 - Housing: Partial Assistance Rental Subsidy (PARS) by \$76,546 from \$850,507 to \$773,961.
 - Housing Location, Placement and Advocacy Services by \$9,000 from \$100,000 to \$91,000.
 - Housing: Emergency Housing by \$106,516 from \$1,183,515 to 1,076,999.
 - Mental Health: Counseling/Therapy and Support Groups by \$72,900 from \$810,000 to \$737,100.

- Substance Use Treatment Services: Outpatient by \$28,181 from \$313,127 to \$284,946.
- Mental Health: Psychiatric Medication Management by \$540 from \$6,000 to \$5,460.
- Coordinated HIV Services for Women, Infants, Children, Youth, and Families (CHS: WICYF) by \$89,384 from \$993,157 to \$903,773.
- Early Intervention Services (EIS): Regional Services by \$71,100 from \$790,000 to \$718,900.
- Peer Navigation by \$23,400 from \$260,000 to \$236,600.
- Psychosocial Support Services by \$4,207 from \$46,744 to \$42,537.
- Home-based Health Care Coordination by \$20,565 from \$228,500 to \$207,935.
- Transportation Assisted and Unassisted by \$13,665 from \$151,830 to \$138,165.
- Food Services: Food Bank/Home Delivered Meals by \$48,247 from \$536,073 to \$487,826.
- Medical Nutrition Therapy by \$3,199 from \$35,542 to \$32,343.
- Legal Services by \$25,674 from \$285,265 to \$259,591.
- Emergency Financial Assistance by \$5,567 from \$61,856 to \$56,289.
- 2. **Action Item:** Increase Outpatient Ambulatory Health Services: Primary Care by \$787,674 from \$1,102,630 to \$1,890,304.

This recommendation comes to the HPG as a first motion.

DATE: March 26, 2025

ITEM: Consider the Priority Setting and Resource Allocation Committee (PSRAC) 2nd recommendation for re-allocating Part A funds in fiscal year 2025-2026.

BACKGROUND:

The HIV, STD, and Hepatitis Branch (HSHB) continues to see high utilization of Outpatient Ambulatory Health Services (OAHS): Primary Care. PSRAC is recommending an increase to avoid potential interruption of the availability of this key service.

The reduction of 5 percent (5%) to service categories budgeted under \$300,000 and the reduction of 9 percent (9%) to all remaining service categories are recommended. The savings can be deployed to meet the high utilization of OAHS: Primary Care.

RECOMMENDATIONS:

- 1. **Action Item**: Decrease the following service categories by five percent (5%):
 - OAHS: Medical Specialty by \$9,750 from \$195,000 to \$185,250.
 - Oral Health by \$8,047 from \$160,940 to \$152,893.
 - Non-Medical Case Management for Housing by \$10,000 from \$200,000 to \$190,000.
 - Housing Location, Placement and Advocacy Services by \$5,000 from \$100,000 to \$95,000.
 - Mental Health: Psychiatric Medication Management by \$300 from \$6,000 to \$5,700.
 - Peer Navigation by \$13,000 from \$260,000 to \$247,000.
 - Psychosocial Support Services by \$2,337 from \$46,744 to \$44,407.
 - Home-based Health Care Coordination by \$11,425 from \$228,500 to \$217,075.

- Transportation Assisted and Unassisted by \$7,592 from \$151,830 to \$144,239.
- Medical Nutrition Therapy by \$1,777 from \$35,542 to \$33,765.
- Legal Services by \$14,263 from \$285,265 to \$271,002.
- Emergency Financial Assistance by \$3,093 from \$61,856 to \$58,763.
- 2. **Action Item**: Decrease the following service categories by nine percent (9%):

RECOMMENDATIONS FOR RE-ALLOCATION FOR FY 25-26 (03-01-2025 TO 02-28-2026)

DATE: March 26, 2025

ITEM: Approve the Recipient recommendations for re-allocating Part A funds in fiscal year 2025-2026.

BACKGROUND:

The HIV, STD, and Hepatitis Branch (HSHB) continues to see high utilization of Outpatient Ambulatory Health Services: Primary Care. We are recommending an increase to avoid potential interruption of the availability of this key service.

The reduction to Housing Location, Placement and Advocacy Services is recommended because this service category will not be deployed until a later date. Emergency Housing Services, Mental Health, Peer Navigation and Transportation are recommended because these service categories have historically had savings. The reduction in Emergency Housing will impact approximately 68 clients and 1,271 units of service. The reduction in Mental Health will impact approximately 110 clients and 4,845 units of service. The reduction in Peer Navigation will impact approximately 62 clients and 609 units of service. The reduction in Transportation will impact approximately 148 clients and 1,731 units of service. The total amount identified can be deployed to meet the high utilization of Outpatient Ambulatory Health Services: Primary Care.

RECOMMENDATIONS:

- 1. **Action Item**: Decrease Emergency Housing by **\$250,000** from **\$1,183,515** to **\$933,515**.
- 2. **Action Item**: Decrease Housing Location, Placement and Advocacy Services by \$100,000 from \$100,000 to \$0.
- 3. Action Item: Decrease Mental Health by \$230,000 from \$810,000 to \$580,000.
- 4. Action Item: Decrease Peer Navigation by \$88,407 from \$260,000 to \$171,593.
- 5. Action Item: Decrease Transportation by \$50,000 from \$151,830 to \$101,830.
- 6. **Action Item:** Increase Outpatient Ambulatory Health Services: Primary Care by \$718,407 from \$1,102,630 to \$1,821,037.

HIV Planning Group Priority Setting and Resource Allocation Committee

Overall 2024 Key Data Findings Approved July 11, 2024

HIV Epidemiology

- Total number of Persons Living with HIV disease (PLWH) in San Diego County (Prevalent cases)
 = 15,035.
- Recent cases (2019-2023) = **2,142** (a subset of the total or prevalent cases).
- The majority of PLWH through year-end 2023 were men who have sex with men (MSM). For women, heterosexual transmission was the mode of transmission. East, North Inland, and Central Regions have the largest proportion of recent HIV disease diagnoses among women (more than 56% of total women in the three regions).
- The majority of recent HIV diagnoses for over ten years were people of color. The proportion of Non-Hispanic White cases decreased over time, while the proportion of Hispanic/Latino cases increased over time.
- The **HIV** rate (number/100,000 or 10⁵) was higher for Non-Hispanic Black/African American (38.2/10⁵) than Hispanic/Latino (20.5/10⁵) or Non-Hispanic White (7.2/10⁵) between 2019 and 2023.
- Since 2019, the 30-39 years age group and the 20-29 years group were the most frequent age groups at diagnosis among recent HIV diagnoses (33.6% and 28.9%, respectively), whereas the **50-59** was the most frequent age group for total PLWH (26.9%) and **60-69** was the second most frequent age group (23.6%)
- The groups with significantly higher percentages of simultaneous diagnoses (<30 days) were (comparing each result with 15.7% for all PLWH): age groups 40-49 (23.6%), 50-59 (25.5%), 60-69% (31.6%) and 70+ (43.5%); Females (17.4%); Hispanic/Latino (17.8%); South Region (20.4%), North Inland (19.4%) and North Central (17.4%); heterosexual (19.1%)

Co-occurring Health Conditions, Poverty & Insurance Status

- Persons living with HIV (PLWH) are more likely than general San Diego County populations to experience the following conditions: TB, STIs, hepatitis B & C, mental illness, injection and noninjection drug use, homelessness, poverty, and lack of insurance.
- Co-occurring health conditions make providing medical care more complex, require greater provider expertise, and **increase the cost of care** for PLWH.
- Research also reveals a higher incidence of gastrointestinal diseases, circulatory diseases, endocrine/nutritional/metabolic diseases, nervous system diseases, and neoplastic diseases such as cancer or lymphoma. PLWH greater than 50 years of age experience an increase in age-related diseases; causes of morbidity and mortality for older PLWH include non-infectious comorbidities, such as cardiovascular disease, hypertension, bone fractures, chronic kidney disease, liver disease, diabetes mellitus, and non-AIDS-defining cancers.

Care Continuum/Viral Suppression

- In San Diego County, of the total number of people who are infected with HIV, 69% are in receipt
 of care; 45% are retained in care and 57% are virally suppressed.
- African Americans/Blacks had a significantly lower level of viral suppression (47%) compared to all PLWH (57%) for all PLWH, but not for all RW clients (90% vs. 92% for all RW clients).
- There was a significantly lower level of viral suppression for Latinx/Hispanics (55%) compared to Whites (61%).
- Among all RW clients, there was a significantly lower level of viral suppression for Multiple races (81% compared to 92%).

• Persons who inject drugs (PWID) (45%), men who have sex with men (MSM) + PWID (46%), heterosexual contact (46%), and unknown risk (33%) had significantly lower viral suppression compared to all PLWH (57%).

Unaware Estimate

- Definition: PLWH, not aware of their status/have not been tested.
- The estimate of PLWH and unaware of their status in San Diego County in 2023 was 1,277 or 8.5% (of 15,035 estimated number of PLWH in San Diego County).

Unmet Need Estimate

- Definition: PLWH, but not in medical care.
- The unmet need estimate of PLWH in San Diego County in 2023 was 4,661 or 31% (of 15,035 estimated number of PLWH in San Diego County).

Regional Availability of Ryan White (RW) Part A/B Services

- The fewest RW Part A/B services are available in the North Inland region, followed by the East region.
- All of the RW Part A/B services are available in the Central region.

Service Eligibility Guidelines

- To be eligible to receive Ryan White Parts A/B services in San Diego County, one must:
 - Be a resident of San Diego County
 - Have an income at or below 500% of the Federal Poverty Level (FPL) (\$75,300 annually or \$6,275/month for a household of one)
 - Have a confirmed HIV diagnosis (except in service categories that permit services to HIVnegative and unaware)
 - Have no other payer for service
- All clients must be reassessed for eligibility every twelve months

Survey of HIV Impact 2020-2021

- The top 5 ranked services (in order) are HIV medications, HIV primary care, dental care, case management and medical specialists.
- The top "need but can't get" services are dental care, help to pay rent, legal services, counseling/therapy, and peer advocacy/navigation.
- The percentage of respondents who said they "need but can't get" a service *increased* in all top 5 services noted above since the 2017 survey.

Needs Assessment Focus Groups 2020-2021

- The top 3 concerns Consumers discussed in the focus groups were:
 - Access to care
 - Mental health
 - Housing
- The top reasons for not taking HIV medication as prescribed were:
 - Drug use and drug addiction
 - Forgetting to take the medication
 - Lack of access to health care or resources to get the medication refilled
 - Experiences of homelessness
 - Side effects of HIV medication
 - o Experiences of mental health issues, such as depression

Getting to Zero Community Action Plan Focus Groups 2020-2021

- **160 community participants** living with or vulnerable to HIV provided input to the following 11 recommendations:
 - Acknowledge and address medical system mistrust. Representation noted as an issue; ensure ongoing recruitment, support, and retention of a workforce representative of those living with HIV.
 - 2. Improve communications and outreach strategies for those living with and at higher risk for HIV who live, work, or participate in historically underserved, low-income communities.
 - Ensure that all HIV community members have opportunities for equitable access to telehealth appointments and participation in public meetings, address the digital disparities present for those with lower income who are also living with or at higher risk for HIV.
 - 4. Provide increased mental health and substance use treatment opportunities for those living with or at higher risk for HIV.
 - 5. More consistently provide rapid access to basic support services: housing, food, transportation, and emergency financial assistance, including shut-off and eviction prevention.
 - 6. Continue to expand the opportunities to hire, support and utilize peer navigators, peer health educators, peer outreach specialists, benefits navigators, and housing specialists.
 - 7. Design, integrate, and deploy strategies to address the stigmas faced by HIV community members, including the multiple layers of stigma faced by those living with HIV who are also Black and Latino MSM; transgender persons; immigrants who may be under-documented or undocumented; those struggling with mental health symptoms or alcohol/substance use challenges or those without stable housing.
 - 8. Increase the number of HIV service sites that have the capacity for whole person-whole health services, including PrEP, mental health services, substance use treatment services, hormone treatment, case management, and housing resources.
 - 9. Design, create, and execute improved community engagement and outreach strategies that utilize community organizing principles and personal relationship building.
 - 10. Revise and refine the documentation processes that create a barrier to access services for persons living with or at increased risk for HIV.
 - 11. Design and deploy a variety of brief, online trainings for those living with or at higher risk for HIV.

Non-RW Mental Health and Substance Use Disorder Treatment Services in San Diego County

- There are several non-RW mental health and substance use treatment services providers in San Diego County that have HIV/PLWHA/LGBTQ competencies. Some of the providers noted also receive RW funds for services and may provide services using non-RW funds.
- All programs operated by or contracted through the County of San Diego Behavioral Health Services (BHS) are required to provide services and supports that respect diverse beliefs, identities, cultures, preference, and represent linguistic diversity of those served. Programs are responsible for evaluating the need for culturally/linguistically appropriate services and linking individuals to those services or making appropriate referrals.

To address the challenges faced by people living and aging with HIV, you will:

- Define and conduct a SWOT assessment
- Identify how SWOT findings can be used to develop SMART objectives
- Understand and draft SMART objectives to address SWOT findings

Ice Breaker

- Think back 20 or 30 years. What were some of the major challenges faced by People Living and Aging with HIV?
- Think about today:
 - How have things changed?
 - What challenges remain?

- Strengths (S): Internal Advantages What are we doing well? What internal advantages do we have?
- . Weaknesses (W): Internal Challenges Where could we improve? What internal challenges are we facing?
- Opportunities (O): External factors that could be leveraged for growth -What external trends, conditions, partnerships and/or resources might help us?
- . Threats (T): External Risks & Barriers What external factors could hinder our success? What risks or challenges do we need to anticipate?

SWOT Examples

Strengths (S): Internal Advantages - What are we doing well? What internal advantages do we have?

Example: Experienced healthcare providers that are knowledgeable about HIV and aging.

Weaknesses (W): Internal Challenges - Where could we improve? What internal challenges are we facing?

Example: Limited specialized providers focusing on geriatrics and HIV care.

Opportunities (O): External Growth Factors - What external trends, conditions, partnerships and/or resources might help us?

Example: Advances for telehealth for better access to care.

Threats **(T):** External Risks & Barriers - What external factors could hinder our success? What risks or challenges do we need to anticipate?

• Example: Potential cuts to HIV/AIDS funding and aging related resources.

Why SWOT Matters for People Living and Aging with HIV

- Helps identify gaps in services and policy barriers
- Supports data driven decision making
- Aligns community needs with program strategies
- Strengthens funding proposals and advocacy efforts

- Identify Strengths, Weaknesses, Opportunities, and Threats related to people living and aging with HIV
- Use the SWOT Analysis worksheet in page 6 of your workbook

Group Activity: SWOT Gallery Walk

- . **Strengths (S):** Internal Advantages What are we doing well? What internal advantages do we have?
- . Weaknesses (W): Internal Challenges Where could we improve? What internal challenges are we facing?
- Opportunities (O): External factors that could be leveraged for growth
 What external trends, conditions, partnerships and/or resources
 might help us?
- . Threats (T): External Risks & Barriers What external factors could hinder our success? What risks or challenges do we need to anticipate?

SMART Objectives ensure that goals related to people living and aging with HIV are:

- **Specific:** What exactly do you want to achieve? Be clear and specific.
- Measurable: How will you measure success? Include numbers and/or clear indicators.
- Achievable: Is this goal realistic given available resources and constraints?
- Relevant: How does this align with the needs of people living and aging with HIV?
- **Time-bound:** What is the deadline for achieving this goal?

From SWOT to SMART

SWOT – Strength: A community that supports and understands people living and aging with HIV.

Specific (S) – What exactly do we want to achieve?

- What specific issues related to older adults living with HIV do we want to address? Who will be involved and what will they do?
- . Example: Develop a peer mentorship program for people living and aging with HIV to provide social support and reduce isolation.

Measurable (M) – How will we track progress?

- What indicators will show success? How many, how much, or how often?
- Example: Recruit and train 20 peer mentors within the next 12 months to support at least 50 people living and aging with HIV.

From SWOT to SMART

Achievable (A) – Can we realistically accomplish this goal?

- Do we have the necessary resources, time, and partnership? What steps are needed to make this happen?
- Example: Partner with three local HIV service organizations to train peer mentors and provide support materials.

Relevant (R) – Why is this goal important?

- How does it align with the needs of older adults living with HIV? How will this improve health outcome or quality of life?
- Example: People living and aging with HIV experience higher rates of social isolation, which affects mental and physical health. A peer mentorship program directly addresses this gap.

From SWOT to SMART

Time-bound (T) – When will this be accomplished?

- What is the deadline for completing this objective? Are there key milestones along the way?
- Example: Within the next 12 months, train and deploy the first cohort of peer mentors, with a mid-year check-in to assess impact.

SMART Objective: Within the next 12 months, develop and implement a peer mentorship program for people living and aging with HIV by recruiting and training 20 peer mentors, partnering with three local HIV service organizations for training and support materials, and ensuring at least 50 older adults receive social support, with a mid-year check-in to assess impact.

- Identify a key issue from a SWOT Analysis
- Develop one SMART Objective addressing the issue
- Use the SMART Objective worksheet in page 11 of your workbook

	a. Presentation : Dental Health Services and Practices – Dr. Fadra Whyte, County of San Diego	 Dr. Whyte presented on dental health services and practices. The following discussion was held: Important to sustain relationships with clients and help them connect with dentists, including our own families. There are no dental services provided by the County at this time, but there are some contracted providers that do offer these services, such as Federally Qualified Health Centers (FQHC) which are able to help with coordination via an electronic medical record. There should be no reason that dental providers would be denying services to those living with HIV. 	Dr. Whyte to provide additional materials on the risks of skipping dental services to HPG Support Staff (HPG SS) for sharing.	
	b. ACTION (Priority Setting and Resource Allocation Committee): Reallocations for FY 24 (March 1, 2024 – February 28, 2025, the current fiscal year)	Motion: Approve a decrease of funding to Emergency Housing by \$332,483 from \$1,515,998 to \$1,183,515. 7.	Committee reports and recommendations	Priority Setting and Resource Allocation Committee (PSRAC): The committee had a meeting earlier this month to approve reallocations. An ad hoc meeting was approved for February to review FY25 allocations and consider more funds for the primary care category. Membership Committee: The committee is still working on the seat definitions. The membership expectations document will be brought to Steering in March as it is still work in progress and will be presented at the January HPG meeting. Medical Standards and Evaluation Committee (MSEC): The committee is meeting in February to review the Oral Health Standards.

	a. ACTION : Approve the revised Mileage Reimbursement Form	Motion: Approve the revised Mileage Reimbursement Form with the changes listed below. M/S/C: Garcia-Bigley/Wimpie/4-0 Discussion: The following discussion to took place: - Visa gift cards are not allowed. - Arco may not be the cheapest option. - Recommendation to remove the unaffiliated consumer. - Concern about the language regarding ineligibility when two consecutive meetings are missed.	HPG SS to confirm with the Project Officer about an ability to provide grocery cards in lieu of gas cards (including cards for electric car charging stations).	

Agenda Item	Discussion/Action	Follow-Up
	 No way to compensate those who drive electric vehicles. Remove "consumer" from the form. "You may be eligible to receive reimbursement if you drove to and from the meeting" A recommendation to have a policy not attached to the reimbursement form that doesn't call out consumers. Add language about "I have read and understood the" Recommendation to remove items 4 and 5. (change the mileage amount) Abstentions: Donovan, Lochner Motion carries 	
b. ACTION : Steering Committee meeting schedule	No action needed. If a modified time works for Dr. Grelotti, starting March, the committee will move to a new schedule.	HPG SS to ask Dr. Grelotti if 10am on 2 nd Friday of every other month would work.
c. Discussion : 2025 Retreat	The following discussion took place: There may be some benefit to discuss the Ryan White funding at the federal level. Ending the HIV Epidemic (EHE) initiative may be at risk of being cancelled. Prep funding may also be at risk, including Medi-Cal and ACA funding. Provide an overview of different systems and how they work. Aging is also an important topic that may need training, especially aging women living with HIV. Current political climate and what the consumers are facing (housing, medical benefits, service coordination, aging deportation). Recommendation to have a retreat in early spring so the	HPG SS to look at 11am-3pm or 1pm-5pm on March 26 th (HPG meeting). HPG SS to find a trainer without conflicts.

a. ACTION : Approve 2025 Meeting Schedule	Motion: Approve the 2025 meeting schedule M/S/C: Van Brocklin/Wimpie/5-0 Discussion: Add language to PSRAC clarifying that the June/July meetings are additional. Abstentions: Lochner Motion carries	
b. Discussion : Unaffiliated consumer definition and 33% minimum requirement	 The following discussion was held: The current definition is restrictive as people living with HIV cannot have a job at any of the Part A service organizations. It makes it harder for Christie's Place that tries to empower those people as a goal should be for clients to achieve self-sufficiency which is part of the overall wellness. A clarification that people living with HIV who are NOT considered an unaffiliated consumer, do not get counted in the demographics. The rule/definition goes back to the very beginning, which misaligns with the changing time. Ryan White has not been reauthorized since 2009. 	
c. Discussion : Committee assignment process for new and current members	The committee reviewed the process. The following discussion took place: - HPG SS will be sending four forms for the members to complete and submit, including a committee preference. - When membership makes a recommendation to appoint a new member, it should also include a recommendation for a committee. The Chair will then make the appointment.	HPG SS to review the membership application with the Membership Committee to ensure that the committee preference is listed and isn't restrictive.

c. Getting to Zero (GTZ) Community Engagement Project i. Membership Committee Plan/Strategy for Recruitment	Outreach Plan: This highlighted the need for a structured outreach plan that includes community events, sign-in sheets, and follow-up processes. Suggestions included: • Attending community and university club meetings. • Partnering with providers conducting their outreach. • Implementing both physical and digital outreach strategies. Committee discussed how the rules affect certain members receiving reimbursement. Issue: Restrictions preventing individuals who work for HIV organizations and are HIV-positive from participating. Discussion: • Current rules disallow the participation of HIV-positive individuals who are employed by HIV organizations receiving Ryan White funding. • A member expressed strong opposition, highlighting that these rules hinder self-sufficiency and exclude valuable advocates from decision-making. • The group discussed the rigidity of federal guidelines and the need for advocacy to change these restrictions. Agreed to continue researching potential loopholes and to advocate for policy changes to include frontline staff and individuals with lived experience.

	language for consideration and inclusion into the service standards – in progress	
7. Old Business		
a. Transportation Standards Draft – update from Recipients' Office/Felipe Ruiz	The following discussion was held: - Maritza Herrera went through the document and reviewed the updated information, primarily around unassisted transportation (i.e., day passes). The updated draft is not available in the packet, but it will be sent out to all for additional input and discussion at the February 2025 committee meeting.	HPG Support Staff (HPG SS) will send the updated draft to the committee and will include it in the February 2025 meeting for review.
b. Mental Health ServicesStandards – review andupdate	The document was updated to include input received. An action item to approve this document is on the agenda as a new business item.	
c. Universal Standards – review and update	 The following discussion was held: The standards were approved several years ago. A consulting firm that's working on the Whole Person Approach to Care initiative provided input on the Standards, and their input was included in the packet. The language provided by the consulting firm is more clarifying in nature. The original standards from 2020 were provider-focused, and the current language is more consumer-focused. A concern whether the document protects consumers or is provider driven. 	HPG SS will obtain input from the committee members and bring the updated draft with tracked changes to the February 2025 meeting for review and vote.
i. Trauma-Informed Care – review and update	The trauma-informed services are a standalone document, adopted by the Health and Human Services Agency (HHSA). The language is seen in all public-facing documents. The box with the measures is additional language to further ensure that services are sensitive and trauma-informed.	

Agenda Item	Discussion/Action	Follow-Up
	The following revisions were recommended: Replace the word "trigger" with "activated" or "trauma response", where appropriate. Replace the word "control" in the last dot point with "agency". Change "servicers" to "services" in the table. In the box, no resources are listed, and it needs to be made available for staff and people who are reexperiencing trauma. How do providers know the difference between a client experiencing trauma versus misbehavior? Staff and providers can use de-escalation training and receive annual training to refamiliarize themselves. How does a client on substance know they are experiencing trauma? The document is a starting point that provides guidance to the providers on training options to the staff to ensure they know how to recognize trauma and respond with de-escalation techniques. A suggestion to include language clarifying that we all experience life in different ways and that an individualized approach is necessary to decrease retraumatization. Trauma-informed care needs to be interwoven through the system and not be limited to an annual training requirement.

This makes it difficult for them to access emergency services, contact sponsors, or arrange transportation to important events. It would be great if we could provide loaner cell phones with prepaid minutes to support clients during their time in the program.	
6. Review & approval of the meeting agenda for January 13, 2025	The agenda for January 13, 2025, was approved by consensus as presented.

8. Discuss 2025 Training Opportunities/Update s	 Veronica Figueroa provided the following update: We have presenters from San Diego 211, Alliance San Diego, and Family Health Centers, but please let us know if you would like any other topics or presenters covered. Members from the public suggested the following presentation: Domestic Violence presentation. Either a panel of survivors or organizations that help folks. Given the stress and rising violence during COVID, they would like to see more awareness and resources for all individuals. Center for Community Solutions or SBCS for a DV/IPV presentation. Additionally, Your Safe Place. Project Pearl from Christies Place. Mamas Kitchen to present on their program. Townspeople, Father Joes Village, and other opportunities for women to take advance of the resources that are throughout the County. It is important to know our rights and what housing resources are out there. Immigration and how the community is going to be impacted by new legislation. Also highlighting the demographic needs and ensuring our programs and systems provide cultural competency and language services to address those needs. Employment services and other services to help women thrive.

11.Reports		
a. Women and Youth Out of Care Group Discussion	 We need programs for children and teens living with or impacted by HIV. Keep bringing these discussions to this meeting so not only you can be heard, but other providers can learn what to advocate for. We need to make sure that transgender women are still included in this conversation. We need to remember that there are transwomen who raise children as well. We should all come together in unity. Christies Place also provides childcare so that individuals can attend meetings like the planning group or CARE. UCSD MCAP has a Youth Support Group ages 18-24 on Tuesdays starting at 3:30pm. Program called ACE Aware from UCSF that provides training for women raising children while living with HIV along with providing resources children need to thrive.

STAFF HIGHLIGHT

OA is pleased to announce that **Karin Hill** has accepted the position of Business Innovation Section Chief!

is available on the Office of AIDS (OA) website.

Karin has led the Sexual Health & Program Resilience Section in work related to the provision of culturally responsive, traumainformed, patient centered, and equitable HIV Prevention activities while ensuring the development and implementation of effective programs that successfully meet the needs of those we serve. She has demonstrated a unique ability to utilize strength-based approaches that can be used to dismantle racial and health inequities that seeks to improve health outcomes for priority populations. Her ability to negotiate sensitive and complex issues with stakeholders and internal staff has allowed her to provide support to supervisors and direct reports in three distinct units. As the primary manager for the HIV California Planning Group, she has led the team of state and community co-chairs to provide monthly educational webinars and bi-annual inperson conferences across the state.

In her spare time, Karin enjoys excursions with her kids Bridget and Connor, seeing any stage musical she can find, and playing with her dog Penny. Karin is also pursuing a master's degree at Penn State University, in Organization Development and Change. Please take a moment to congratulate her in this exciting new role.

HIV AWARENESS

February 7th is National Black HIV/AIDS
Awareness Day (NBHAAD). The theme,
"Engage, Educate, Empower: Uniting to End
HIV/AIDS in Black Communities," will again be
used in 2025. The meaning behind the theme is
to involve the Black/African American community
in HIV prevention, educate Black/African
American people about prevention and treatment
strategies, and encourage the community to

share their success stories about living with HIV. NBHAAD is celebrated to emphasize the importance of access to HIV education, prevention, testing, and treatment strategies.

NBHAAD was established in 1999 as a grassroots-education effort to raise awareness about the disproportionate impact of HIV/AIDS on the Black/African American community. Although the Black/African American communities have made progress in reducing HIV, they are significantly impacted by social and structural determinants of health such as racism, medical mistrust, and access to quality healthcare. These and other factors affect whether Black/African American people seek or receive HIV treatment of are aware of life saving measures such as pre-exposure prophylaxis (PEP), and/or post-exposure prophylaxis (PEP).

According to the CDPH HIV Surveillance data, in 2022 Black/African Americans make up approximately 6% of California's population. However, they account for 16% of living HIV cases and 15% of newly diagnosed cases. Notably, from 2018 to 2022, the overall rate of new HIV diagnoses decreased by 13% however, there is still more work to do. View the factsheet depicting demographics and health outcomes for the Black/African American community.

GENERAL UPDATES

▶ Mpox

OA is committed to providing updated information related to mpox. We have partnered with the Division of Communicable Disease Control (DCDC), a program within the Center of Infectious Diseases and have disseminated a number of documents in an effort to keep our clients and stakeholders informed. Please refer to the <u>DCDC website</u> to stay informed.

Digital assets continue to be available for LHJs and CBOs on DCDC's <u>Campaign Toolkits</u> website.

► HIV/STI/HCV Integration

We continue to move forward with the necessary steps to integrate our HIV, STI, and HCV programs into a single new Division. We will continue to keep you apprised on our journey as new information comes in.

ENDING THE EPIDEMICS STRATEGIC PLAN

The <u>visual at the top of page three</u> is a high-level summary of our *Strategic Plan* that organizes 30 Strategies across six Social Determinants of Health (SDoH).

OA and STD Control Branch would like you to continue to use and share the <u>Strategic Plan</u> and the <u>Implementation Blueprint</u>. These documents address HIV as a syndemic with HCV and other STIs, through a SDoH lens.

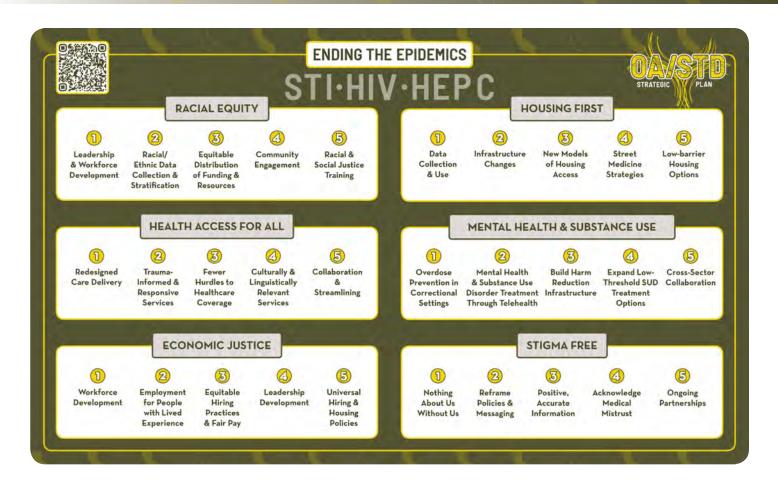

For technical assistance in implementing the *Strategic Plan*, California LHJs and CBOs can vist <u>Facente Consulting's webpage</u>.

HEALTH ACCESS FOR ALL

Strategy 1: Redesigned Care Delivery

OA continues to implement its **Building Healthy Online Communities (BHOC)** self-testing
program to allow for rapid OraQuick test orders
in all jurisdictions in California. The program,

<u>TakeMeHome</u>, is advertised on gay dating apps,
where users see an ad for home testing and are
offered a free HIV-home test kit.

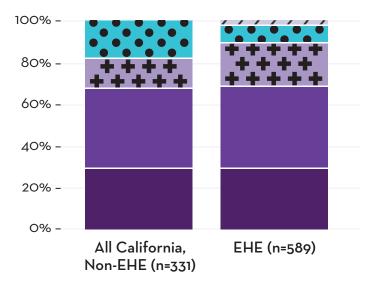

TAKEMEHOME®

In December, 331 individuals in 39 counties ordered self-test kits, with 224 (67.7%) individuals ordering 2 tests. Additionally, OA's existing TakeMeHome Program continues in the six California Consortium Phase I Ending the HIV Epidemic in America counties. Between the program's initiation in September 1, 2020, and December 31, 2024, 15,260 tests have been distributed. This month, mail-in lab tests (including dried blood spot tests for HIV, syphilis, and Hepatitis C, as well as 3-site tests for gonorrhea and chlamydia) accounted for 151 (25.6%) of the 589 total tests distributed in EHE counties. Of those ordering rapid tests, 320 (73.1%) ordered 2 tests.

Since September 2020, 1,703 test kit recipients have completed the anonymous follow up survey from EHE counties; there have been 725;

responses from the California expansion since January 2023.

Strategy 3: Fewer Hurdles to Healthcare Coverage

As of January 31, 2025, there are 278 PrEP-AP enrollment sites and 229 clinical provider sites that currently make up the <u>PrEP-AP Provider</u> network.

<u>Data on active PrEP-AP clients</u> can be found in the three tables displayed on page five of this newsletter. As of December 31, 2024, the <u>number of ADAP clients enrolled in each respective ADAP Insurance Assistance Program</u> are shown in the chart at the top of page six.

HOUSING FIRST

> Strategy 2: Infrastructure Changes

OA's HIV Care Branch is looking for a new Housing Opportunities for Persons with AIDS (HOPWA) Program provider for Santa Barbara County. HOPWA provides housing assistance and supportive services to prevent or reduce homelessness for persons living with HIV (PLWH). Local government entities (e.g., health departments, housing authorities, or community development agencies) and nonprofit community-based organizations may apply. The award amount for Santa Barbara County is approximately \$241,300 per year.

Request for Application (RFA) #25-10039 can be found on OA's webpage. OA will host a technical assistance webinar through MS Teams on February 20, 2025 (1 PM to 2 PM). If you are interested in applying, submit an e-mail of intent to how.nc.gov by March 14, 2025, and you will be sent the application materials. Applications are due March 17, 2025.

RACIAL EQUITY

Strategy 5: Racial and Social Justice Training

The CDC offers free capacity building assistance (CBA) through training, technical assistance, and other resources to reduce HIV infection and improve health outcomes for people with HIV in the United States. Its CBA Provider Network provides CBA on a vast variety of HIV preventions related topics, including enhancing

MENTAL HEALTH & SUBSTANCE USE

Strategy 3: Build Harm Reduction Infrastructure

RESEARCH: Association of distributing smoking supplies and naloxone

As the overdose crisis evolved into the current fourth wave of poly-substance use, trends on how substances are used evolved as well. Smoking has become the most widely used route of administration, prompting some people

who injected to transition to smoking. To sustain and increase engagement with people who use drugs, some syringe services programs started distributing safer smoking supplies to participants.

Science Direct published an analysis from the National Survey of Syringe Services Programs in the United States last month that highlights the effectiveness of distributing safer smoking equipment as a form of engagement. Smoking supplies distribution was associated with more participant encounters and greater naloxone distribution. The study also found that more community-based organizations distributed safer smoking supplies than health department and healthcare-run syringe services programs.

ASSEMBLY BILL (AB) 2302: THE USE OF JUST CAUSE AND EMERGENCY CIRCUMSTANCES (2025)

(An Amendment to AB 2449)

If the physical attendance quorum requirement is met, AB 2302 permits a member who is not physically present to request virtual attendance at the local legislative body's meeting under two circumstances: (1) for "just cause" and (2) due to "emergency circumstances".

Qualifying Reason	Provisions to Attend Remotely	Requirements/Limitations
"Just Cause"	 There is a childcare or caregiving need (for a child, parent, grandparent, grandchild, sibling, spouse, or domestic partner) that requires the member to participate remotely. A contagious illness prevents the member from attending the meeting in person. There is a need related to a defined physical or mental disability that is not otherwise accommodated for. Traveling while on official business of the legislative body or another state or local agency. 	A member is limited to two (2) virtual attendances due to "just cause" per calendar year.
"Emergency Circumstances"	"A physical or family medical emergency that prevents a member from attending the meeting in person." A member is <u>not</u> required to disclose any medical diagnosis or disability, or any personal medical information that is already exempt from existing law.	A member of the legislative body must: 1. Make a request to the body to allow the member to meet remotely due to an emergency circumstance; and 2. Provide a general description of no more than 20 words of the circumstance justifying such attendance. A request from a member to attend remotely requires that the legislative body take action and approve the remote attendance at the start of the meeting for the member to be allowed to participate remotely for that meeting¹.

¹If the request does not allow sufficient time to be placed on the agenda as a proposed action item, then the legislative body may take action at the beginning of the meeting.

Additional Requirements for a Member Participating Remotely

In addition to making a request either for "just cause" or due to an "emergency circumstance" for remote appearance, AB 2302 imposes the following three (3) additional requirements on legislative body members seeking to appear remotely at public meetings:

- 1. The member:
 - Notifies the legislative body at the earliest opportunity possible, including at the start of a regular meeting, of their need to participate remotely for just cause, including a general description of the circumstances relating to their need to appear remotely at the given meeting. OR
 - Requests the legislative body to allow them to participate in the meeting remotely due to emergency circumstances and the legislative body takes action to approve the request. (See "requirements/limitations" for the use of emergency circumstances.)
- 2. The member shall publicly disclose at the meeting before any action is taken, whether any other individuals 18 years of age or older are present in the room at the remote location with the member, and the general nature of the member's relationship with any such individuals.
- 3. The member shall participate through both audio and visual technology.
